

CAVALRY BEYOND PARRAL

Code Dispatches Received at El Paso Indicate That the Expeditionary Force Has Reached the Durango Border.

Column Has Now Temporary Base Near Parral—First Authentic News From Troops in Several Days.

By Associated Press Dispatch.

El Paso, Texas, April 12.—That the American expeditionary force has penetrated far beyond Parral, and is near if not actually on the Chihuahua-Durango border line, is indicated in code dispatches received here this afternoon by private concerns with interests in the Parral district.

These dispatches said the American advanced columns now had a temporary base near Parral.

This is the first authentic information that has come from these troops for several days.

ANOTHER VERSION

By Associated Press Dispatch.

El Paso, Texas, April 12.—An entirely new version of the story of Villa's death was brought here today by a Mexican cattleman, who claimed to have suffered a visitation from a band of Villa followers on his ranch near Bachiniba.

This man said that Villa was neither dead nor wounded, but that Pablo Lopez, the bandit's notorious lieutenant and executioner-in-chief, had died, and that Villa had deliberately used his death as the basis of the story of his own finish.

The cattleman said the Villistas who came to his ranch ridiculed the American soldiers and boasted about the way Villa had fooled the "gringos" by sending guides to the American officers with stories of definite places in which he was hiding.

"They did not say anything about the whereabouts of the Villa bandits but I understood from their talk that he was far to the south and that they were under orders to meet him somewhere near Parral," said the Mexican.

Villa's ride south has been a disastrous one for the villages and the small towns through which he has raided, according to numerous reports received here.

His men have looted at will and have been ruthless in their destruction of property.

GOING AHEAD

By Associated Press Dispatch.

Columbus, N. M., April 12.—Preparations to increase the ordinance department at the expeditionary base here are being made.

Ten men are expected from the government arsenal at Rock Island, Ill., to augment the present force, which has issued pieces to troops in the field since the beginning of the campaign.

CHANGE IN LINE

By Associated Press Dispatch.

San Antonio, Texas, April 12.—Major General Funston announced today that a change would be made soon that would effect the long line of communication between Columbus, New Mexico, and General Pershing's advance forces.

He declined to state what the change would be; but, barring the free use of the railroads, it was assumed by army officers that it had been decided either to reinforce the line materially or shift it to a shorter route.

NOTED AUTHOR DIES SUDDENLY

By Associated Press Dispatch.

Mount Kisko, New York, April 12.—Richard Harding Davis, author and war correspondent, died at his home here late last night from heart trouble.

His body was found early this morning. He had apparently been stricken while at his telephone.

WORKS' STINGING REBUKE

Hands Out Hot Shot to Those Who Are Tempting Justice Hughes.

By Associated Press Dispatch.

Washington, April 12.—Senator Works, Republican, today coupled an attack on the Army bill with a denunciation of politicians, who, he declared, were trying to tempt Justice Hughes with a presidential nomination.

"Partisan politics," declared the California senator, "is ruthless in its demands and invades the most sacred precincts of the national government."

"It is seeking place and pelf and power, wherever and whenever it can find entrance."

"Just now, it is attempting to invade the Supreme Court of the United States."

"It is presenting to a member of that body the greatest temptation that could be offered to an American citizen—to surrender his place on the bench and become a candidate for political office."

"This attempt to bring the highest judicial tribunal of the country, or any members of it, into politics should be resented, not only by the member to whom the tempting offer is made but by the whole country."

REV. BOWERSOX BELLIGERENT

Says He Will Preach in Toledo Church Next Sunday—Churchmen Say He'll Not.

By Associated Press Dispatch.

Toledo, April 12.—"Under the protection of the court, I will preach in Western Avenue M. E. church," declared Reverend Albert F. Bowersox this morning.

"Mr. Bowersox will not preach. He has been ousted, and we will call the police if necessary to prevent him from preaching," declared E. E.

McCammon, district superintendent.

Mr. Bowersox asserted this morning that a temporary injunction, which was granted late yesterday on his application, will protect him in his right to occupy the pulpit.

He denied that he has been guilty of improper conduct, as charged, and asserted that proceedings against him had been inspired by his activity against the saloon interest.

Cincinnati, April 12.—"The matter has been disposed of according to the law of the church until the session of the West Ohio Conference which meets at Lima in September."

"The Rev. Mr. Bowersox is no longer pastor of the Toledo church, and I am going to appoint a man to succeed him," declared Bishop William F. Anderson today.

DANIELS HISSED

Refuses Paper to Be Read and Navy Leaguers Grow Wrothy.

By Associated Press Dispatch.

Washington, April 12.—Secretary Daniels' refusal to permit Rear Admiral Fiske to read a paper before the Navy League Convention here today, stirred up a wave of denunciation of the Secretary in the meeting and drew hisses from one part of the hall.

The Admiral's paper, previously published in an official publication of the Navy College, was read by William Mather Lewis, of Lake Forest, Ill., while the meeting cheered loudly.

Lack of logical method in the development of the American Navy was deplored in the paper.

"PLAY BALL"

By Associated Press Dispatch.

New York, April 12.—With clear and fair weather reported from seven of the eight major league cities, the opening games of the baseball season today will probably attract big attendances.

As is the case each season, the two major leagues will stage their opening games equally between East and West.

More than usual interest centers in the first contests this season, on account of the many changes in the personnel of the teams.

GERMAN SOLDIERS PRAISED BY FRENCH

After Two Months of Continuous Battle Brave Teutons Keep Up Attack With No Diminution of Courage and Ardor.

French Sustaining Shock of Battle With No Evidence of Fatigue Infantry Fighting Slows Up.

(Associated Press Cable)

London, April 12.—In Caurettes Wood, just west of the Meuse river, another attempt to break the French line defending Verdun was made this morning by German troops.

The official communication from Paris says the attack was repulsed.

East of the river, there was no infantry fighting during the night, although the artillery kept up its incessant fire.

The official French statement says the German losses in yesterday's fighting were very heavy.

Press dispatches from Paris give praise of the German soldiers, who, after nearly two months of the fiercest fighting, keep up the struggle with no visible diminution of courage and ardor.

The French, too, sustain the shock of battle with no evidence of fatigue and the struggle goes on with no sign of an ending.

After a winter of inactivity along the French frontier, heavy fighting is now under way, although apparently it is still confined principally to artillery action.

GREAT LAKES TRAFFIC WILL BEAT RECORD

By Associated Press Dispatch.

Washington, April 12.—Assistant Secretary Sweet of the Department of Commerce, back today from a tour of Great Lakes ports, declared that the shipping season, soon to open, would break all records for goods carried.

"Vessels out of commission for the last two or three years have been fitted up for service," he said. "Many vessels are loaded now, ready to start."

GERMAN ANSWER

Admits Destruction By Submarines of Five Vessels, Claiming Justification.

(Associated Press Cable)

Berlin, April 12.—The German reply to the American note concerning the damaging or the sinking of five steamships contains the statement that the steamers Englishman, Eagle Point, Manchester Engineer and Berwindvale were destroyed by German submarines.

Evidence is presented to show that these vessels were torpedoed legally, in accordance with rules of war.

The note states that a German submarine torpedoed a steamship in the vicinity of the place at which the steamship Sussex was damaged by an explosion, but that evidence at hand indicates that the vessel torpedoed by the submarine was not the Sussex.

THE CAUSE OF ANAEMIA

It is universally known that iron is a very important element of the blood, and lack of it is the direct cause of run-down conditions and anaemia. It may interest our readers to know that Druggists Blackmer & Tanquary of this town, have in Vinol a reliable, constitutional remedy for such conditions. Vinol supplies iron to the blood in its most soluble state, then there's the nourishing properties of beef peptone and the medicinal curative extractives of fresh cod livers, without oil, all dissolved in a pure native tonic wine. That's what makes Vinol so successful in overcoming run-down and anaemic conditions.

Premier Asquith's Position

There is much worthy of the serious consideration of honest, thinking people in the speech of Premier Asquith on the occasion of the visit of the French Senators and Deputies, at Lancaster House, Monday night.

Replying to the recent utterances made by Chancellor Dr. Bethmann-Hollweg in the German Reichstag, regarding the Prussian military power, Premier Asquith said:

"As a result of the war, we intend to establish the principle that international problems must be handled by free negotiations on equal terms between free peoples, and that this settlement shall no longer be hampered or swayed by the overmastering dictation of a government controlled by a military caste. That is what I mean by the destruction of the military domination of Prussia—nothing more, but nothing less."

"We are in this struggle the champions, not only of treaty rights, but of the independent status and free development of weaker countries."

That is a fair, square statement defining the position of a great nation and a great people. It recognizes candidly the futility of any attempt to preserve peace by preparation for war, and frankly acknowledges the inability of weaker nations and peoples to develop under the lowering black cloud of the military supremacy of another nation. With clearness the English premier discloses his belief in the necessity for a universal peace pact to preserve treaty rights and the integrity of smaller nations.

Coming from the accredited spokesman of the heretofore foremost exponent, bar possibly Germany, of the necessity for military and the navy extension there is much in it to encourage those who strive for peace.

These utterances, we should bear in mind, come not from a defeated nation, but from a nation which confidently believes at least, that success will come to its soldiers and sailors.

Premier Asquith's speech should, and doubtless will, open up a new vista to those who strive for peace and hope that the end of war is near at hand.

It should cause all those who advocate, for selfish reasons, tremendous expenditures in furtherance of military programs, as well as those who thoughtlessly follow, to pause and consider the dangers.

It Seems to Be Here

Spring seems to have arrived. A few more days of warm sunshine and balmy south winds will work wonders with the landscape.

In city and country districts the garden patches will be tilled and cleared, spaded up and pulverized ready for the seeds and plants that are now growing in boxes placed in south windows.

Many an expert gardener, who has developed his elaborate plans during the long winter and who has been growing restless with springs belated arrival, will soon now have a chance to subject his theories to the acid test, to get blistered hands, stiff back and sore muscles and observe the vast difference in the appearance of the garden pictured on a seed catalogue cover and a garden in the back yard of his own home lot.

In the rural districts the plowing will be pushed to the limit in time for the planting.

Men hereabouts are going to be moderately busy, thank you, for the next few weeks.

Everyone thinks this is the latest spring we ever had. It isn't though. It is the latest one we remember right now.

Not a New Remedy

Hon. James Boyle, of the State Tax Commission, announces, in effect, that if city officials would expend the same amount of time and energy in bringing onto the tax duplicates of their respective municipalities property which now escapes, as they expend in an endeavor to get rid of the tax rate limit law the financial ills of Ohio cities would vanish like the ills of springtime after a big bowl of sassafras tea.

Mr. Boyle is right—absolutely. But he has discovered no new principle of public financing and is advertising no new cure all for public ills.

The same remedy for the existing ills of Ohio cities has been advocated ever since the disturbing effects of the rate limit law have become acute.

The trouble with the old remedy suggested anew by Mr. Boyle is that local taxing officials will not administer the remedy. In fact they could not and hold their positions.

That's the trouble with a locally controlled system of property listing officials, the same system which had been tried and found wanting and to which Mr. Boyle and his chief so loudly advocated a return.

With property listing officials, secure under civil service laws from the wrath of the big tax dodgers the cities and municipalities were in a fair way to obtain a competency, but for political expediency the whole plan was upset and the old failure is resurrected.

Officials are not handicapped by the consequences of not knowing what to do but by the consequences of not doing what they know.

Poetry For Today

STAR DREAMS.

So pure, so ineffably bright,
So friendly, so benign
In the holy silence of night,
The stars upon us shine.

That sometimes I dream when I see
Their glory on me shed,
That the stars God's heaven must be,
Where the souls of our dead.

In lands of light-living, may still
Look on us from above
And commune with our souls at will,
Love's deathless power to prove.

A sense felt within us, a thrill,
Tells us that they are near,
Having come—for they love us still—
Down from their starry sphere.

My soul, when dream-haunted at night,
Wanders from star to star
And seeks the one within whose light
I dream my loved ones are.

A Persian Tale

How a King's Royal Treasury Was Filled

His royal nibs shoved back from his breakfast, consisting of Yankee bacon and buckwheat pancakes, and scowled at the coffee-pot. His scowl deepened as he counted four old tin kettle pots and realized that he had been wiping off his chin with a paper napkin that sold for 15 cents a hundred.

"Zounds, am I to be thus belittled!" cried the ruler of the sun, the moon and the seven seas. "What, ho, slave, come to me at once!"

A door of the room opened, and the royal duster appeared. "What is wanted, your majesty?" she asked.

"Call in my royal executioner," he shouted, "and then hunt up Murphy, my royal treasurer, from the city of Cork and tell him to come on the fly! There is going to be something doing here!"

"I'm here, thou greatest of kings!" exclaimed Murphy, the royal treasurer, as he came rushing into the sacred presence.

"Murphy," said the king, "I am going to have your head!"

"Oh, king, what have I done?" was gasped out in reply.

"It is what you haven't done, thou blackguard and deceiver! When you came from Cork to be my royal treasurer you boasted that my coffers should always be full to the brim. Has it ever been thus? Haven't I been hard up ever since the day you landed from that tramp steamer? Haven't I had to do all the planning to raise the wind? Murphy, you must go around in future without a head on your shoulders!"

"Say not so, oh, mightiest!" wailed Murphy. "I can invent some scheme to fill your coffers in a week. All I need is a brainstorm, and I feel that one is coming on now."

"Murphy," said the king, "I was determined on having your head, but I will try you once more. You shall have till 6 o'clock this evening to think out a scheme."

Murphy made his adieu with trembling chin and shaking knees, and he retired to his room to accomplish the task set for him. After him came the assistant royal stoveblacker in hopes to borrow 50 cents till pay day. In an instant that long sought for scheme flashed upon the royal treasurer. The assistant was wearing a diamond in his shirt bosom as big as an overcoat button.

With a shout of "I am saved!" Murphy ran with all speed to prostrate himself before the king and exclaimed: "Your majesty, I have the scheme. A month ago a Yankee from that Yankee land beyond the sea came here with a big bag full of diamonds and began to sell them at such a low price that everybody could buy. Every washwoman in your capital city has as many as five diamond rings, and many of them have a sunburst as well."

"But how can that be, Murphy? Truly a diamond is a diamond and is worth its price?"

"But the fun of the thing, oh, king, is that they are not real diamonds, but only glass that sparkles. Now let us issue a royal edict that every diamond worn in your realm shall be taxed a certain price."

"But the people who have bought of the Yankee will at once claim that these so called diamonds are glass and thus escape the tax."

"I have looked out for that," said Murphy. "After three or four days, when the wearers of these false stones are chuckling over their escape from taxation, we will issue a second royal edict. We will say that certain persons having belittled your dignity by wearing jewels made of glass, all such glass shall pay double tax, and we will at once proceed to collect the same. Do you get me, O king?"

"I get you bigger than a house, Murphy," smiled the king. "It is the best scheme I ever heard of, and you have saved your head. By gosh, but no one except a man from Cork could have thought that out! You are a peach of a royal treasurer, and I shall continue you in that high office as long as you live and don't ask for a salary. Haste away, my royal friend, and write out those edicts for me to sign."

HOTEL FOR GIRLS

Home Bequeathed to Workers by New York Merchant.

EXPERIENCE SHOWED NEED.

Suggests That Hotel For Unmarried Working Women Be Erected in Business District, but Does Not Confine Executors to Any One Region.

New York.—Charles Bertram Webster, a merchant who died March 16 last, bequeathed about one-third of his large estate for the foundation of a corporation which is directed to erect in the retail dry goods district an apartment house wherein unmarried working women shall have apartments at cost.

The decedent, who for many years lived at the Hotel Nederland, was a native of Providence, R. I., a son of Josiah L. Webster, a dry goods merchant there. He came to New York early in life. In 1896 he retired from active business, but never lost his interest in it or in the people who worked for the firm.

Before providing for the project which had long been in his mind, Mr. Webster bequeathed to five cousins \$5,000 each, set aside \$25,000 to Thomas W. Beckley, described as a "servant," and gave \$10,000 to his coachman, Frank Falkner.

He bequeathed to Joseph L. Webster, his brother, all his horses, carriages, harness, clothing, jewelry and automobiles and two-thirds of his residuary estate. He then said:

"Having been engaged for many years in the business known as a department store in the city of New York and having employed a large number of unmarried women in that business, I have realized that the domestic environments of many of them are not conducive to their morals or health, and I have concluded to endeavor to improve the condition of some of them by giving them the opportunity to live in clean, well ventilated, comfortable and attractive apartments, and for that purpose I direct my executors to form, or cause to be formed, as soon as practicable after my death a corporation for benevolent purposes under the membership corporation law of the state of New York or under such other law of the state of New York as may be applicable at the time.

"The particular objects for which such corporation is to be formed are to generally improve the conditions of un-

married working women and particularly to establish, maintain and conduct apartments in the borough of Manhattan for occupation by unmarried working women regardless of their religious belief or nationality and wherein they may find comfortable and attractive homes.

"The name of said corporation shall be the Webster apartments, and the territory in which the corporation shall be principally conducted shall be the borough of Manhattan."

The decedent suggests that the building be erected in the vicinity of the retail stores, but does not confine the executors to any particular district. He says he thinks the sort of building he desires can be erected and equipped for about \$400,000, but he does not confine his agents to this sum. They can spend more if they think necessary.

"The building shall contain a library and restaurant," directs the decedent, "and such other appurtenances as will tend to render the apartments comfortable and attractive. Apartments are to be let furnished and unfurnished.

"I direct that said apartments shall not be conducted for profit, but solely for the purpose of providing unmarried working women with homes and wholesome food at a small cost to them and in deserving cases without cost to them. I direct that the directors of said corporation shall fix the rentals and the prices of food with the view of carrying out that purpose. The cost of maintaining the apartment and restaurant in excess of the receipts therefrom shall be met from such income as the corporation may have exclusive of the receipts from said restaurant and rentals."

"The decedent asks the executors to serve as officers of the corporation until the first annual meeting.

ORDINANCE IS PASSED FOR FLUSHING PAVED STREETS

Council Also Adopts Resolution Not to Pave More Streets This Year, North Main Street Being Excepted—Many Weeks Before Flushing Begins.

At an adjourned session of council, Tuesday night, an ordinance was passed for the flushing of the paved streets, action started toward paving North Main street from Temple to Paint, and a resolution was adopted making it the sense of council that no further street paving be authorized during the present year, the Main street job being the exception.

All members were present with the exception of Bloomer. A few visitors and two flusher agents, Crawford of the Studebaker and Hannah of the Tiffin Wagon Co., were present.

A report from Service-Safety Director Hillery, making recommendations for flushing, was submitted, and provides for flushing the following streets four times each week during the warm months, for a period of five years: Court, North to Hinde; Fayette, East to Market; Main, East to Temple; Market, Main to Alley 1/2 square east of Main. Flushing three times each week, Temple, Main to Hinde. Flushing twice each week, North, East to Gibbs avenue; Washington Avenue, Court to Ely street; East, Main to Washington Avenue; East Court, North to Washington and Columbus avenues; Hinde, Court to Paint; Paint, Union station to Lewis; Columbus avenue, Court to Lewis intersection; Leesburg avenue, Court to McKinney avenue; Main, East to Elm; West Court, Hinde to Leesburg avenue. Once each week, Rawlings street.

Evans suggested that other streets the improvement of which is contemplated, be included. Solicitor Gregg stated these could be introduced any time when finished.

The report was accepted, and an ordinance embodying the recommendations was submitted. The ordinance provides that the Engineer and Service-Safety Director prepare place on file, specifications as above recommended, and authorizes Service-Safety Director prepare to contract with the lowest bidder for flushing the streets. Ordinance further provides for the issuance of bonds in anticipation of the collection of the special assessment to be levied against abutting property owners for the street flushing. A bond of \$1,000 is to be given by the contractor for faithful performance of his duty. Contractor is to flush streets and clean solids from gutter. The entire cost is to be paid by abutting property owners.

The ordinance was read and passed under suspension. It will be several weeks, however, before a contract can be entered into and the street cleaning taken up.

A report from the Service Committee relative to water plugs and other matters, was read. The committee recommended the immediate installation of water plugs, or fire hydrants, as follows:

One on Paint between North and Forrest; Another between Forrest and Walnut; one on Willard, to be moved from corner at Columbus avenue; one on Yeoman, near Worley

street; one at intersection of Harrison and Oak streets and one on Temple near Draper.

The committee also recommended the paving of North Main street from Temple to Paint, this year; the building of a sewer on Oakland avenue, from near the B. & O. R. R. north to an open ditch "so street can be widened and sidewalks built."

The closing recommendation of the committee was that no further street improvements be considered this year. This report was adopted.

When the resolution to pave Main street was submitted, Whelpley objected, stating that he could not see the necessity of paving the street, when many of the property owners did not wish the street paved.

Howell favored paving, stating that the section was only one square and was between paved streets and should be completed. If the street was got to be used, he said, why not convert it into a flower bed or garden.

Evans suggested that if the property owners on Main street objected, then proceed with some other street along which the property owners are anxious for paving.

The resolution was read for the first time, all voting yes. When a motion was made for suspension of the rules and read the second and third time, Sheets and Whelpley stopped further action on it at the session by voting no.

Henry Brownell urged council to take steps to pave Rawlings street, stating that the property owners did not ask for the city to pay one-third but would pay for all but the intersections. He thought the street should be completed and Lewis street improved to form a connecting link between the city and Lewis pike.

No action was taken, and council adjourned.

SCOTT IS TAKEN TO THE WORKHOUSE

Oscar Scott, young man convicted of petit larceny, growing out of his robbery of the J. H. Anderson meat market Saturday night, was taken to the workhouse, Wednesday morning, in charge of officer Baughn.

His term in the work house is for a period of six months, while a \$200 fine has been suspended over him to keep him straight after he is released from prison.

FUNERAL SERVICES LARGELY ATTENDED

The Pearce home on N. Hinde street was filled Tuesday afternoon for the funeral services of Mr. Henry C. Pearce. The services were impressively conducted by Rev. Wm. Boynton Gage, assisted by Rev. J. Vernon Stone.

Rev. Gage followed the memoir with a short talk in which he spoke feelingly of the deceased and his many good qualities, known best in the home circle for he was essentially a home loving man. The hymns "Abide With Me" and "I Need Thee Every Hour," were read.

The flowers were many and beautiful, sent from Dayton, Columbus and Lancaster as well as from friends here. Among special designs were a beautiful wreath from

the family, casket spray W. R. C. and double casket spray of dark red carnations and white hyacinths.

The burial was made in the Washington cemetery. The pallbearers were Messrs. Thomas Wright, Thomas Pearce, Chas. Pearce, Herbert Pearce, J. B. Smith and Frank Wright, of Lancaster.

Relatives who were here to attend the funeral were Mr. and Mrs. Thos. Wright, Mr. and Mrs. Frank Wright, Mr. Charles Pearce and son Herbert, Mr. Tom Pearce, Mr. Milton Strode, Mrs. Chas. Enbrick, Mrs. Frank Foster, Miss Etta Greene, of Dayton, Mrs. Will Stuckey, of Columbus.

MILTON HYER ANSWERS ROLL CALL

Mr. Milton Hyer, retired carpenter and builder, and one of the highly esteemed older citizens of Washington, died suddenly, aged 75 years, at his home on the corner of Hopkins street and Broadway, Tuesday night at 10:30.

Mr. Hyer was stricken with paralysis on the 19th of last January. He had recovered to a remarkable degree and was able to be down street daily and do light work, which he much enjoyed, in his garden. Tuesday he worked in his garden quite a part of the day and retired apparently as well as usual. About an hour later he complained of pain in his chest and passed away at half past ten o'clock.

Two devoted daughters, Mrs. Frank E. Dixon, and Miss Linnie Hyer, both living at the home, survive him and have the sympathy of many friends in their sudden bereavement.

Four brothers and four sisters also survive: Dr. A. A. Hyer of this city; John, of Sabina; P. J., of Selden; Marshall T., of Washington, D. C.; Mrs. M. A. Melvin and Misses Tillie and Alma Hyer of this city, and Mrs. Elisha Taylor northwest of town.

The wife and son, Tom, died several years ago.

Mr. Hyer was one of the most active and interested members of the Col. B. H. Millikan post as long as health permitted and held a number of offices in it.

The funeral will be held at the residence Friday at 10 a. m., with the Grand Army in charge. Burial will follow in the family lot in the Washington cemetery.

LOCAL WOMEN AWARDED PRIZES

Mrs. W. B. Rogers and Mrs. R. O. Young have been awarded prizes in the Ohio State Journal's recipe contest. Mrs. Rogers' recipe was for Salmon Croquettes and Mrs. Young's for bran bread.

CHOKED CREEK GRAVE MENACE TO THIS CITY

Those who have given careful study to the conditions of Paint creek from a point beginning at the concrete bridge at Millikan avenue, and extending down-stream through the city, see a grave menace to much property in case of a flood similar to or even smaller than that of 1913, as the channel of the stream has been choked in various ways since that time.

First, the concrete bridge is of not sufficient width to permit passage of a great volume of water, and almost under it willow trees nearly three inches in diameter have sprung up to aid in catching drift to retard the current. Besides the several willow trees, innumerable smaller willows choke the current.

The D. T. & I. and C. H. & D. pile bridges form the chief menace, however as the piling have been driven into the bed of the stream in such a way as to form a barrier which would catch and hold drift of all kinds, eventually forming a veritable dam which would send the stream out of the banks in a hurry, and when the new street is constructed, the water would be turned south across Paint street.

During the past year scores of new piling have been driven into the stream at the bridges, the old piling being let alone, while others were cut off at the surface of the stream at ordinary times.

Further down stream other obstructions combine to retard the flow of water. It is menace that will continue until definite action is taken by the county commissioners.

UNION STATION NEIGHBORHOOD A BUSY PLACE

Half-Dozen Gangs of Men Busy on Street, Sewer, Station and Road Work, and Scene of Activity Will Continue for Many Weeks.

The B. & O. station vicinity is a very busy place at the present time, and gives promise of continuing to be a very busy place for weeks to come.

Gangs of workmen are busy on Hinde street sewer and excavating for paving, and another gang is busy on the Paint street sewer.

Workmen are finishing the interior of the union station and completing the umbrella sheds in front of the station. The sheds are ready for the tile roofing. The work of laying the red tile floor in the main waiting room of the station is nearing completion. It will require several weeks to complete the station, lay the brick paving about it, and place everything in readiness, and June 1st is set for the time when it will be thrown open to the public.

The work of filling in Water street from a point opposite the new station to Temple street has been moving forward very rapidly during the past few days, macadam and earth removed from Hinde street being utilized to make the fill. The fill will be completed this week, it is expected, and be ready for the final top dressing of stone or gravel. The street will be one of the widest short streets in the city.

Men also are busy completing the work of resetting the curb on Hinde street, and filling in behind the new curb, so that within a few days the concrete base can be laid.

At the new two track concrete culvert just east of the coal tippie B. & O. men are completing the work of filling in and re-ballasting the road bed at that point.

Virtually everything has been cleared away so that the work of filling in the new street immediately north of Paint creek, from Millikan avenue to Oakland avenue, across the Willis Lumber Company's lot and the lower end of the Sales Barn tract owned by Chas. Allen, can be taken up as soon as the excavation work on Main and Paint streets is started.

In Social Circles

Browning Club met Tuesday night with some thirty present and much interest in the closing program for the year's work. Mrs. Hennes, president, presided.

Secretary, Mrs. Burgett, gave minutes of last meeting showing quite an amount of unfinished business, which was taken up for completion.

As delegates appointed to National Federation could not attend, Mrs. Elizabeth Carpenter and Alternate, Miss Edith Gardner, were appointed. "Baby Week" campaign was considered. Mrs. Harry Sprenger who was a most indefatigable worker, gave some report of the much good accomplished, beginning with over 125 babies examined by the doctors, the women hope for still greater results another year and Mrs. Sprenger said the co-operation of the Browning club had been a great aid.

Miss Gardner reported the date of the Shakespearean recital as April 26th, in the Baptist church.

The secretary gave a report, sent to the club concerning milk investigation. Miss Tullis reported for Miss Channel the help that had been given scholars in her school, \$15, through the entertainment of the Browning club, "Daddy Long Legs."

Mrs. Kerr, as chairman of Household Economics, had charge of the department and the motto "A Penny Saved is a Penny Got," was well shown in the first paper, by Mrs. Burgett, on "The Art of Marketing."

Intelligence and skill are surely needed here and only secured by practice. Conservation is a good thing and also to take the percentages which help the household managers.

A beautiful vocal solo was given by Miss Ada Woodward with Miss Ruth Reid as accompanist.

"Mother Craft," was topic of a very sensible, helpful paper with the aim of aiding mothers in child training, by Mrs. F. D. Woodard. Matur- ing of human life is like plant life and a child needs to be trained early. The quotation aptly fitted and was well illustrated, "Only the best of mothers are the mothers of best of men." Miss Tullis read a paper written by Mrs. Tysor, "Responsibility to Daughters in Regard to their Clothing." The practical points were very well made and of interest.

The club felt it was profited and instructed in a talk by Dr. L. P. Howell on "The Sewerage System of Today." Living in a modern time, money must be spent for modern improvements. Hygiene and sanitation are calling for and getting much of practical work. The needs are startling in behalf of sewerage, a cess pool problem and trunk sewers. The club thanked Dr. Howell for giving this needed information which they hope to make use of.

The closing number of the program was a review of "Every Woman," a play written by Walter Brown, teaching the motto: "Be merciful, be just, be fair, to every woman everywhere."

The Mary Boyd Hale class of the First Presbyterian church was delightfully entertained Tuesday afternoon at the home of Mrs. Josephine Kerr, with Mesdames Hale, Jackson, Hadley, Hamm, Ellen Jones, Kimball, Hammer, Grove, Gardner and Miss Alma Hyer.

Thirty women were present and after a brief business session, enjoyed sociability and dainty refreshments.

Miss Dorothy Post gave a very pretty program at Conservatory Hall Tuesday afternoon. The bright young student showed decided ability and played with excellent time and expression.

Ralph Lloyd contributed a taking song, with chorus by other pupils; Miss Post accompanying.

Christine Meiers gave an entertaining recitation, "Faith and Works." Mrs. Carpenter gave an original tribute, in rhyme, to the younger pupils which made a big hit with the children. The poem introduced each name in a pleasing and complimentary way.

The next recital will be held on Saturday, April 29th, at 3 p. m., when 25 pupils will give an Easter program.

The members of the Harry Wood Bible class of the First Baptist church were royally entertained at the home of Mrs. Will Davenport, Tuesday evening. After the regular business session, an interesting feature was the drawing of letters in which each member was assigned some special duty to be performed and reported upon at the next meeting.

The serving of dainty refreshments added much to the social hour which was full of enjoyment, so full indeed that when the time came to say Good Night, the company lingered, going out buoyantly to take up the work of life anew and help to lighten the burden of others.

Twenty-five couples greatly enjoyed the Pythian Sisters' assembly dance at the K. of P. Castle, Tuesday night. Horstman and Miller furnished the music.

O. E. S.

All members of Royal Chapter No. 29, O. E. S., are requested to meet at Masonic Temple, Thursday at 1:30 p. m. sharp, to attend the funeral services of Sister Hattie Swope-Parker.

MARTHA R. MARK, W. M. MARGARET R. COLWELL, Sec'y.

CRAIG BROS Easter Millinery!

Tomorrow Begins the Easter Fashion Season, and Our New Arrivals Have Placed Us In Readiness for Your Coming.

Hats That Are Favored

Straws With High Lustre—Lisere and Porcupine Braid Are In Strong Demand.

Light colored hair hats, soft delicate shades matching the colors in the frocks for summer, and in combination with lace, maline or tuscan and tailored effects in black hair are conspicuous in the lines of all leading designers.

Milans in tailored and demi-tailored styles of course.

A novel millinery innovation is the introduction of Chinese and Mexican straws, especially in the tan and dull green shades, and several noteworthy types of this character are shown in loose weaves interlaced with ribbon.

Basket weaves are among the leaders.

The millinery section may rightly be termed an exposition of ALL the correct modes of the season, from the showrooms of designers of much reputation.

SENATE PASSES ITS 'SUB'

Extends Present Duty on
Sugar Until May, 1920.

NOW GOES TO CONFERENCE

Flat Repeal Resolution as Passed by
the House Favored by Four Demo-
cratic Senators, Who Voted With
Republicans Against the Senate
Substitute—Sharp Controversy in
Conference Anticipated.

Washington, April 12.—The senate
passed its substitute for the house
free sugar repeal resolution, extend-
ing the present duty of 1 cent a pound
on sugar until May, 1920. The vote
was 40 to 32.

Four Democrats, Senator Brou-
sard, Ransdell, Newlands and Lane,
joined the Republicans in voting
against the substitute. They favor the
flat repeal passed by the house. A
sharp controversy in conference be-
tween the two houses is predicted.
Anticipating that the house would
insist upon its resolution, Senators
Simmons, Stone and Lodge were nam-
ed as the senate conferees.

Unless a conference agreement is
reached and approved before May 1,
sugar will go on the free list until
such time as the repeal or extension
of the duty can be made effective.

Most of the tariff discussion did not
touch upon the sugar issue, but was
devoted to an amendment by Senator
Works of California to increase the
tariff on lemons and other citrus
fruits to 1 cent a pound. This was
defeated by a vote of 44 to 29, Sena-
tor Phelan of California being the
only Democrat to support it.

Senator Phelan declared seven coun-
ties in California comprised the whole
lemon producing region in the United
States and that the reduction of the
duty on lemons had caused a loss of
\$800,000 in revenue. He insisted that
lemons were a luxury, not a necessity.

Senator Vandaman opposed the
Works amendment and said while he
would vote for the senate substitute
sugar resolution he would not give
his assent to the house measure. "I
would not vote to tax any of the ne-
cessities of life for battleships that
are not needed," he said. "I have
very little sympathy for the prepared-
ness program that seems to be agreed

A HUMMER

(By American Press)

Washington, April 12.—The river
and harbor bill, authorizing the ex-
penditure of \$39,698,410 for river and
harbor work, was passed by the house
by a vote of 219 to 133. The only
amendment adopted was one offered
by Representative Good, prohibiting
the payment of any sums included in
the bill to private contractors charg-
ing more than 25 per cent above the
estimated cost of the work as done
by the government. Mr. Good charged
that the dredging contractors were
making exorbitant profits and that a
pool existed for the division of gov-
ernment work. The amendment was
adopted by a rising vote of 113 to 73.

LUSITANIA ELOPEMENT

(By American Press)

Lynn, Mass., April 12.—Not until a
divorce was granted to Mrs. Marion
L. Snowden of this city was it known
that her husband, Thomas E. Snow-
den, and Mrs. Eva Finch, wife of John
Finch, all well known in this city,
were eloping to Europe on the Lusitania,

rescued from the Lusitania, but Mrs.
Finch was drowned.

mission can not be held liable for a
crime in connection with his action
in sending to civil service employees
letters urging political activity in be-
half of Governor Willis. Stoughton is

Plumbers' Strike Settled.

Alliance, O., April 12.—The striking
plumbers settled their wage differ-
ences when the employers agreed to
pay \$4.60 the first year, \$4.80 the sec-
ond and \$5 the third for eight hours.

Bids For Road Work.

Columbus, April 12.—State High-
way Commissioner Cowen will open
Friday, April 23, bids on contracts for
the construction of portions of thirty
four roads of various types in twenty-
four counties. The estimated cost of
the contracts is \$1,135,377. Improve-
ment of eighty-two miles is con-
templated in the contracts, which, to-
gether with the letting of last week,
provides for the construction of 172
miles.

Will Resist Removal.

Toledo, April 12.—Rev. A. S. Bow-
ersox, pastor of Western Avenue
Methodist Episcopal church, obtained
a temporary injunction in common
pleas court to restrain the church
trustees from removing him. Mr.
Bowersox was tried March 1 by a
church committee and found not gui-
ty of charges of indiscretions pre-
ferred against him. This finding later
was reversed. The proceedings were
secret.

Stand of Willis.

Cincinnati, April 12.—Governor
Willis has written a letter to Leslie
L. Tull, editor of the Cincinnati Truth,
a colored newspaper supporting the
candidacy of Ralph W. Tyler of Col-
umbus for delegate-at-large to the Re-
publican national convention, in
which he declares he knows of no or-
ganization of colored state employees
which has for its purpose opposition
to Tyler's candidacy, and that if he
did know of such an organization he
would not approve it.

Club Officials Fined.

Toledo, April 12.—Jacob Kelly,
president of the Manhattan Golf club,
and Charles Germain were found gui-
ty of selling liquor without a license.
They will appeal the cases. Kelly
was given the maximum fine, \$500
and costs, while Germain, who, dur-
ing his trial, threatened to "load a
gun" for State's Attorney Bell of Col-
umbus, according to a statement Bell
made to Judge John P. Manton, was
fined \$400 and costs.

Cases May Be Dropped.

Columbus, April 12.—Two suits filed

ney general, against the estate of the
late William S. McKinnon and Isaac
B. Cameron, former state treasurers,
to recover interest on public funds al-
leged to have been converted by them
to their own use while in office, will
be dropped from the Franklin county
common pleas court docket unless
steps are taken at once by Attorney
General Turner to prevent such ac-
tion. The state seeks to recover about
\$200,000 in the two actions.

FACES MUSIC

(By American Press)

New York, April 12.—United States
Commissioner Houghton decided that
there was sufficient evidence to war-
rant his sending Ernest Schiller back
to Delaware to stand trial for piracy
committed on the high seas when he
captured the British steamship Ma-
toppo single handed. If the commis-
sioner had decided otherwise and had
released Schiller, or Clarence Hudson
as the latter sometimes calls himself,
the "pirate" would have immediately
been arrested in connection with de-
portation proceedings. Schiller's at-
torney, when he heard of the steps
taken to send his client out of the
country as an undesirable alien, came
to the conclusion that his client was
better off in Delaware than he would
be in the hands of the British authori-
ties, who would probably hang him.

TRAGIC END

(By American Press)

Columbus, April 12.—Dr. Charles F.
Gilliam, sixty-two, superintendent of
the Columbus state hospital, for years
active in Ohio Democratic politics,
and Miss Elizabeth Somerville, twenty-
five, a nurse, daughter of the hospi-
tal's matron, are dead as a result of
an accident in Grandview avenue,
near Goodale boulevard, when the
physician's auto was struck by a
Pennsylvania freight train.

No other were in the auto. It was
thrown 75 feet ahead of the train and
across the track. The gasoline tank,
which exploded, immediately set fire
to the machine and burned to a crisp
the body of Miss Somerville, which
was lodged under the wreckage.

Dr. Gilliam, who retained conscious-
ness after the accident, said that he
was driving the machine, which be-
came stalled on the track directly in
front of the train.

SLIGHT ADVANCES BY TEUTONS

Verdun Battle Raging With
Unabated Fury.

DESPERATE ATTACKS MADE

French by Counter Assaults Recover
Trenches Lost Near Douaumont.
Foothold Gained by Germans On
the Slope of Le Mort Homme—Rus-
sians Cneck Von Hindenburg's On-
slaught—Operations On All Fronts.

London, April 12.—Slight gains
were made by the Germans in the
struggle for Verdun.

The French front between Doua-
umont and Vaux, to the west of the
Meuse, was subjected to a heavy Ger-
man attack. A temporary footing
was gained in some advanced trench
elements of the French line, but the
French launched a counter attack
and immediately cleared these ele-
ments, so that no permanent gain for
the Germans resulted from the as-
sault.

The operations proved to be an-
other instance of the strategical
scheme which has been employed so
often by the German command in the
Verdun campaign of alternating heavy
attacks between the two sides of the
Meuse, in an attempt to catch the de-
fenders unprepared through their
anxiety for the strengthening of the
front previously attacked.

A footing was gained by the Ger-
mans on the slopes of Le Mort
Homme, the important height on the
western bank of the river. This hill
is the chief point against which the
recent German operations on this side
of the river have been directed, since
it gives artillery emplacements com-
manding the lines on both sides of
the river, and its capture by the Ger-
mans would mean a still further
straightening out of the French
salient, which already has been com-
pressed by the taking of Bethincourt,
for weeks the apex of the salient.

The Paris war office announced
that German losses in the Verdun bat-
tle have now reached 200,000.
Berlin announces further gains
southwest of Fort Douaumont, but re-
ported the French on the aggressive
around Pepper Heights.

More than 36,000 prisoners have
been captured by the Germans since
the Verdun offensive began Feb. 21.
It was semi-officially stated at Berlin.

In the Russian theater, an attempt
by the Germans to take the offensive
in the region of the Ikskull bridge-
head was stopped by the Russians.
The big guns of both sides have been
very busy at various points elsewhere
along the front.

Petrograd reports the Russians are
continuing to gain ground against the
Turks in the region of Erzerum.

The Austrians, between the Adige
and Sugana valley, have brought into
the campaign artillery which is de-
scribed by Rome as new and very
powerful. The Italian guns, however,
have replied effectively to their fire.

A Great Commonwealth En- riched by Our Service

Ride over the state of Ohio. See its fertile grain fields and
meadows; its orchard crowned hills. Observe the thrifty,
happy looking homes on every side. Go into the cities. Listen
to the factories humming with industry, and busy with the
production of new wealth. Study the enlightened, happy men
and women you will see in town and country, and then reflect
upon the meaning of all that you have seen. You will be
forced to conclude that here, indeed, is a great and prosperous
commonwealth.

There is not a corner of this great state that does not draw its
tribute of dividends from Geiger-Jones securities. There is not a
county that is not richer today because of prosperous industries that
have been financed by The Geiger-Jones Company.

The function of The Geiger-Jones Company has been to facilitate the
production of wealth in Ohio by gathering capital in small sums from
outlying places and putting it at the disposal of growing industries.
The industries we have financed now employ between fourteen and
sixteen thousand people and pay out between \$14,000,000 and \$15,000,000
each year in wages. More than 10,000 other people are interested in
them as preferred stockholders, and not one of these has ever suffered
the loss of a dollar on his investment. Thus, directly and indirectly,
this company has been a powerful factor during the past twelve years
in adding to the wealth and prosperity of this great commonwealth.

More than 10,000 satisfied investors know by personal experience
that these are the true facts about The Geiger-Jones Company—but
in order to facilitate the investigations of others, we have prepared
"A Portfolio of Anniversary Reports With Photographs from Manu-
facturing Enterprises Financed by The Geiger-Jones Company." This
is an interesting 32 page publication that tells about great enterprises
that are doing much day after day to enhance the prosperity of in-
vestors, manufacturers, merchants, bankers, wage-earners and farmers
throughout the state. We will gladly mail a copy without expense or
obligation if you will send in a post card bearing your name and
address.

ONLY RUSE OF BANDIT

Army Officers Flout Report
of Villa's Death.

PURSUIT NOT ABANDONED

Body of Villa Said to Have Been
Buried Near Santa Anna and Amer-
ican Aviators Are Dispatched to
Scene to Make Investigation—Amer-
ican Troops In Touch With Outlaws
Below Parral.

El Paso, Tex., April 12.—The Mexi-
can report that Pancho Villa is dead
and buried and that his scattered band-
its are fleeing in small bands in any
direction for safety is discredited.
There is a suspicion in army cir-
cles on the border that the story of
Villa's death is a cleverly concocted
scheme of the wily bandit himself to
throw the American troops off his
trail long enough to give him a chance
to get out of their reach.

The border did not credit the re-
port much as it wished to believe it,
although there were many in official
and other circles who were inclined
to believe there was a fifty-fifty
chance that the bandit leader had
died of his wounds. It had establish-
ed without question that Villa was
wounded. General Gavira, command-
ing the Juarez forces, stated that
from last reports he had received re-
garding Villa, the bandit chief was
about to die of blood poisoning. The
story of the actual death of Villa
coming on top of this information led
many to credit it.

There is no doubt the report is gen-
eral throughout the region where Vil-
la has been operating that he is dead.
Some say his grave is located at San-
ta Anna, twenty miles south of San-
tevo.

American aerial scouts have been
ordered to the scene to attempt to
locate the grave. Meantime General
Pershing has kept his men in the field
on the trail of the bandit.

An official connected with the
American state department in Juarez
learned from advices to American
mining companies that a band of Vil-
listas, believed to be the command
last seen with their chief, was fol-
lowing the valley of the San Pedro
river and headed for Guadalupe
Calvo, which is one of the strongest
natural fortresses in southwestern
Chihuahua. Villa and his men knew
this rendezvous of old, and if he is
not dead the mining men say they
are convinced that this will be his
destination.

THE GIRL AND THE GAME

A Story of Mountain Railroad Life

by FRANK H. SPEARMAN

Copyright 1915 by FRANK H. SPEARMAN
Novelized From the Moving Picture Play of the Same Name Produced by the Signal Film Corporation.

SYNOPSIS.

Little Helen Holmes, daughter of General Holmes, railroad man, is rescued from imminent danger on a scenic railroad by George Storm, a newsboy. Grower to young womanhood, Helen saves Storm from a fireman, her father, and his friends. Amos Rhinelander, financier, and Robert Seagru, promoter, from a threatened collision. Safebreakers employed by Seagru steal General Holmes' survey plans of the cut off line for the Tidewater, fatally wound the general and escape. Her father's estate badly involved by his death Helen goes to work on the Tidewater. Helen recovers the survey plans from Seagru, and though they are taken from her, finds an accidentally made proof of the survey blueprint. Storm is employed by Rhinelander. Spike, befriended by Helen, in turn saves her and the right-of-way contracts when Seagru kidnaps her. Helen and Storm win for Rhinelander a race against Seagru for right-of-way. Helen, Storm and Rhinelander rescue Spike from Seagru's men.

(Continued from Yesterday's Herald)

Spike came forward as Seagru and Bill appeared and while the latter two examined the machine.

"The girl and Storm came up with this crook in the machine," Bill said, nodding toward Spike.

"Where are they now?" demanded Seagru of the convict.

"Up town getting something to eat," answered Spike.

In the restaurant, to which Storm had taken Helen for lunch before they should go up to the courthouse, Storm, while Helen was ordering, took from his pocket the note for the recorder and gave it to her. Helen opened, read and laid the note on the table with her pocketbook. She and Storm were just enjoying the prospect of a substantial meal, when Seagru, walking in, approached their table. He spoke to them unconcernedly and, without waiting for an invitation, pulled up a chair and sat down with them.

As tactfully as she could, she made her explanations to Seagru about commandeering his motor car. Seagru affected truculence and declined to accept her apologies. But he drew a pencil from his pocket, at length, and using the note lying beside Helen's pocketbook for a pad, wrote on it an exorbitant figure. Showing this to Helen, he said dogmatically, "That's what it will cost, if you want this thing settled without trouble for you."

Helen flushed a little with indignation when she saw what he demanded but she was resolved not to quarrel. "All right," she answered simply, "Mr. Rhinelander will send you a check."

The luncheon Storm had ordered was just coming in and while Helen and Storm watched the waitress, Seagru, leaning forward, looked again at Rhinelander's note still lying on the table. He began to read it. Storm saw the impertinence and leaning over, coolly picked the note from under Seagru's eyes and folding it, put it in Helen's pocketbook.

Seagru, somewhat disconcerted at being caught, rose and left the table without further words. By the time he gained the street he had charted the situation, imprudently revealed through Helen's carelessness in guarding the instructions, pretty clearly in his mind.

Returning to the train he found Bill, Spike and Lug. Taking Bill aside, Seagru called Lug over and told the two about Rhinelander's loss of the deeds and the effort Helen would make to secure certified copies of them. While he was talking he looked at his watch. "In five minutes," said Seagru, "the men in the recorder's office will start for dinner. You two fellows take Spike and go quietly up to the courthouse. When the office is empty get the book of deeds and bring it to my room. Bill, can you trust Spike?"

Bill answered he thought he could. "Don't lose any time," directed Seagru. "You may have to hunt around a little up there. Report to me down at the room."

Bill and his companions stepped over to the train for a jimmie. Spike watched them disappear and hurried up street himself. He now made himself responsible for a further interruption to the lunch that Helen and Storm were just beginning to relish. "Seagru," he whispered, "is up to some work."

"What work?" demanded Helen in alarm.

"Don't know yet," answered Spike, "but I'll find out."

"Do Spike!" she murmured, hurriedly. "Don't let him make any more trouble for us, will you?"

Spike nodded to reassure her, and trotted away. When he got back to the train Bill and Lug came from one of the cars. Bill had a revolver in his hand.

"Bill, where's my kit?" demanded Spike.

"Stow it," muttered Bill, "and follow me."

When the three shambled up to the courthouse square, the clerks were leaving the building and the last man out closed the front door. Bill resolved to get in through a convenient side entrance and dispatched Lug around the building, to force a back window.

By the time the street was clear, Lug had effected his entrance and opened the door for his companions. With Spike, Bill made his way to the recorder's office and began a search among the books. It was not until he had tossed one book after another aside and when, finding the lost book of deeds, he consulted the index book and threw open the pages containing Rhinelander's right-of-way deeds, that Spike got the least inkling of what he was after.

FED APRICOTS TO HOGS.

Fruit Market Was Glutted and In That Way Francis Used His.

Pomona, Cal.—Apricot ham is the latest novelty in this community. C. C. Francis, who has a ranch near here, is the producer. Last summer his apricot crop was going to waste because the market was glutted, so he fed the apricots to his hogs.

He butchered two hogs the other day. They each tipped the beam at 245 pounds. He got fifteen gallons of lard, seven pounds of sausage, four splendid hams, some spareribs, a quantity of side meat, eight pigs' feet and 100 pounds of soap out of the kill.

The hogs were carried through the summer and fall on waste fruit, and this winter they were finished on oranges and cornmeal slop. Mr. Francis declares that the high cost of living won't worry him for awhile at least.

BIG LEAGUES OPEN TODAY

Keen Interest Shown Throughout Both Circuits.

New York, April 12.—Today the opening of the major league baseball season will be celebrated in Chicago, Cleveland, New York and Boston in the American league, and in Brooklyn, Philadelphia, St. Louis and Cincinnati in the National league.

In New York city baseball should be good this year, for all three of the clubs of the metropolis are strong ones, it is believed. With the Giants, Highlanders and Superbas all going well, it will mean prosperity for the more provincial cities who have their usual quota of games to play here.

At Cleveland a revival of interest is anticipated with the signing of Tris Speaker, the star outfielder, and new ownership of the club. Chicago and Cincinnati anticipated rousing openings.

Spring exhibition games revealed some weaknesses in clubs, noticeably the Chicago and Cincinnati, in the National league and St. Louis and Philadelphia in the American.

Many of the clubs have been strengthened during the past winter and every indication points to close races for the pennants. The defunct Federal league and the minor circuits have been fine-combed for diamond talent.

In the National league, Boston, Philadelphia, Brooklyn and New York are generally picked to finish in the first division, while in the American league, Boston, Chicago, Detroit and New York are favored to fill first division positions. Cincinnati is picked by many to make the best showing of any of the western clubs in the National league.

The opening games are as follows: American League—St. Louis at Cleveland, Detroit at Chicago, Washington at New York, Philadelphia at Boston. National League—Chicago at Cincinnati, Pittsburgh at St. Louis, New York at Philadelphia, Boston at Brooklyn.

BELL ON RAT DOES TRICK.

Two Telephone Company Managers Finally Get Wires Through Tunnel.

Canton, Ill.—Success has crowned the efforts of two rural telephone company managers to establish a physical connection between their exchanges here in compliance with an order of the public utilities commission.

It was necessary to run the line through a conduit or tunnel 434 feet long, but of narrow diameter. First a rat with a silk fish line tied to his tail was started through the small passage. A ferret was sent after him to hurry him up, was too ambitious and caught the rat. The entire collection of rats gathered through the medium of a newspaper want ad. were sent through the conduit, but the managers were never able to judge properly the ferret's handicap.

A local inventive genius suggested tying a bell on a rat recently. This was done. The fish line was dragged through and then in turn a fine copper wire. The rat neglected to stop, and as a reward for faithful service he was permitted to escape.

Give your Child Dr. King's New Discovery for Coughs and Colds.

Dr. King's New Discovery is a Doctor's Prescription used for over 45 years. It is pleasant and children like it.

You cannot use anything better for your child's cough and cold than Dr. King's New Discovery. It is prepared from Pine Tar mixed with healing and soothing balsams. It does not contain anything harmful and is slightly laxative, just enough to expel the poisons from the system. Dr. King's New Dis-

covery is antiseptic—kills the cold germs—raises the phlegm—loosens the cough and soothes the irritation.

"I have used Dr. King's New Discovery for the past three years and use it continually in my family. My children are very fond of it for it keeps them free from cold. I can't say too much for it, and don't put off treatment. Coughs and colds often lead to a chronic cough, pneumonia and other serious lung troubles. It is also good for adults and the aged. Get a bottle to-day. All druggists.

WANTS HORSES BY THOUSANDS

Mr. Chas. Allen is in receipt of lengthy telegrams from George M. Davis, of New York City, one of the heaviest buyers of horses for the British and French governments, inquiring about the purchase of several thousand horses from this vicinity, providing they can be obtained at reasonable prices.

If present negotiations are closed this city may become a purchasing center for the next two months and large numbers of horses be purchased by Mr. Allen, with a French inspector located here during that time.

Mr. Davis wired that he would be here Thursday of this week, and if arrangements could be made, would begin inspections within a few days.

OHIO STATE GRAD. WEEK

By Associated Press.

Columbus, O., April 12.—Rev. Charles D. Williams, Episcopal bishop of Michigan, will deliver this year's commencement address to graduates of Ohio State university. The address will be made at 10 o'clock the morning of Tuesday, June 6 in the university armory.

Commencement week at the university will begin Friday, June 2, with the Browning Society's production of "Midsummer Night's Dream" on the campus. The week's activities will end the following Tuesday. The program, as announced by President W. O. Thompson, will be:

Friday, June 2, Browning play, 8:15 P. M.

Saturday, June 3, Alumni Day, including class reunions, university bonfire, prize drill and sing, alumni luncheon.

Sunday, June 4, Baccalaureate exercises, 3:30 P. M., and vespers 8:30 P. M.

Monday, June 5, Class day exercises; parent's luncheon; ball game, seniors vs. faculty; president's reception at 3:30 P. M., class work to end at 6 P. M.

Tuesday, June 6 Commencement exercises at 10 a. m., in armory; senior prom at 9 P. M.

For a time university officials were considering the erection of a temporary tabernacle or the renting of a circus tent in which to hold the commencement exercises, but because of the limited time this plan was not adopted and the armory will be used as in former years.

HOTEL WILL HAVE NURSERY

By Associated Press.

Cleveland, O., April 12.—Cleveland is to have the first hotel in Ohio with a nursery, equipped for the care of children. David Olmsted, who will manage the new hotel declares that a nursery is as necessary to the comfort of guests as baths and elevators.

Therefore, the nursery will be established. It will be in charge of a trained nurse so parents who wish to attend the theater or go shopping may leave their little ones, knowing they will be well cared for. A physician will be in communication with the nurse. Nursery pictures and rhymes will decorate the walls.

The C. O. D. Man

How He Proved His Honesty

I may be that in some of my adventures, so kindly published by the newspapers at large, I may have called myself an honest man," said the C. O. D. man as I sat down beside him with pencil and pad in hand.

I knew that C. O. D. meant cash on delivery, and when I had put a quarter into his hand and he had made a test of its genuineness he continued:

"One fall, just as the country began to hum over nominations and elections, a farmer gave me a job. After three or four days I found out that he was a member of the legislature and his term would soon expire. He was not going to succeed himself. He was suspected of graft, and, more than that, he confided to me that he had taken a money interest in some of the bills before the body. He continued to grow confidential, and finally he said:

"I took you for a common tramp, but I see I was mistaken. You are an intelligent man and of good education, and I believe you could stand up before a crowd and make a good speech. They are beginning to look around for candidates, and I believe I have influence enough to get you the nomination provided you divvy with me on what you make."

"But how will I make anything?" I asked.

"Lord, man, if you can't make a couple of thousand dollars you are no good! They call it graft."

"I couldn't divvy with you, my friend," I said, "because there will be nothing to divvy. I shall draw my wages as a member, but there will be nothing more. I have always been an honest man, and I shall not change."

"Then you may limp along to the next farmhouse, and be durned to you!" exclaimed my kind friend, and I limped. I got another job with another farmer in another county, and in a week he said:

"There is a political breakdown here. I want to go to the legislature, and so do about twenty others. I can't get the nomination, but I'd like mighty well to furnish a candidate and beat the other fellows to it. You are a smart chap. I'll tell you what I will do. I'll scrape you up a pretty good suit of clothes if you will go into the meeting to be held tomorrow night and speak in my favor and give the rest fits. If they don't take what you say about me favorably then I will stand up and move that the nomination be given to you. It may create a stampe and give you the election, but you must understand that as a member of the legislature I control your vote. If there is any money to be made we split it fifty fifty."

"I didn't stop to argue the matter. When the meeting opened next evening I was there in one of the landlord's old suits, and after two or three rows and riots I was called upon to take the platform and speak in the interests of harmony. I spoke, but it didn't bring about that peace and harmony which every one so desired. I announced that not one of the men in the meeting was a fit candidate for office; that not one of them had an honest hair in his head; that every one of them could be bribed for a hundred dollars to vote for anything the leaders of his party wanted him to."

"My first words so stunned them that they let me go ahead for five minutes, and then the crisis came. I do not know how many times I was stepped on, punched, kicked and thrown about, but some one finally threw me out of one of the windows, and I escaped. I afterward heard that about twenty men were badly injured, the hall set on fire and burned to the ground, and a feud started among the men which lasted five years. And all this come about because I would not sell my honesty."

MAY MAKE DYES IN THE OHIO PEN

Columbus, O., April 12.—Dyes will be manufactured by the Ohio penitentiary with secret German processes, if Dr. Emerich Ritter, Cleveland prisoner and self-confessed former German confidential agent, substantiates the claim he made today to Warden Thomas.

Dr. Ritter is a skilled chemist and asserts he is the inventor of "liquid fire." His confession of complicity in the Welland canal plots and other foreign agitation, created a sensation after his arrest and trial in Cleveland last fall. He finally was sentenced only for carrying concealed weapons.

Mrs. Ritter, wife of the prisoner, was on her way here today from Cleveland with small quantities of materials with which Dr. Ritter declared he will demonstrate that valuable dye stuffs, now so scarce in this country, can be made from cheap products.

"I worked in a German dye factory as confidential chemist and I positively know the process," said Dr. Ritter. "Let me have the chance and I will prove it beyond doubt. I can make the state of Ohio the greatest producer of dyes in this country—with the Honorable Warden's permission."

Code Dispatches Received at El Paso Indicate That the Expeditionary Force Has Reached the Durango Border.

Column Has Now Temporary Base Near Parral—First Authentic News From Troops in Several Days.

By Associated Press Dispatch.

El Paso, Texas, April 12.—That the American expeditionary force has penetrated far beyond Parral, and is near if not actually on the Chihuahua-Durango border line, is indicated in code dispatches received here this afternoon by private concerns with interests in the Parral district.

These dispatches said the American advanced columns now had a temporary base near Parral.

This is the first authentic information that has come from these troops for several days.

ANOTHER VERSION

By Associated Press Dispatch.

El Paso, Texas, April 12.—An entirely new version of the story of Villa's death was brought here today by a Mexican cattleman, who claimed to have suffered a visitation from a band of Villa followers on his ranch near Bachiniba.

This man said that Villa was neither dead nor wounded, but that Pablo Lopez, the bandit's notorious lieutenant and executioner-in-chief, had died, and that Villa had deliberately used his death as the basis of the story of his own finish.

The cattleman said the Villistas who came to his ranch ridiculed the American soldiers and boasted about the way Villa had fooled the "gringos" by sending guides to the American officers with stories of definite places in which he was hiding.

"They did not say anything about the whereabouts of the Villa bandits but I understood from their talk that he was far to the south and that they were under orders to meet him somewhere near Parral," said the Mexican.

Villa's ride south has been a disastrous one for the villages and the small towns through which he has traveled, according to numerous reports received here.

His men have looted at will and have been ruthless in their destruction of property.

GOING AHEAD

By Associated Press Dispatch.

Columbus, N. M., April 12.—Preparations to increase the ordinance department at the expeditionary base here are being made.

Ten men are expected from the government arsenal at Rock Island, Ill., to augment the present force, which has issued pieces to troops in the field since the beginning of the campaign.

CHANGE IN LINE

By Associated Press Dispatch.

San Antonio, Texas, April 12.—Major General Funston announced today that a change would be made soon that would effect the long line of communication between Columbus, New Mexico, and General Pershing's advance forces.

He declined to state what the change would be; but, barring the free use of the railroads, it was assumed by army officers that it had been decided either to reinforce the line materially or shift it to a shorter route.

Hands Out Hot Shot to Those Who Are Tempting Justice Hughes.

By Associated Press Dispatch.

Washington, April 12.—Senator Works, Republican, today coupled an attack on the Army bill with a denunciation of politicians, who, he declared, were trying to tempt Justice Hughes with a presidential nomination.

"Partisan politics," declared the California senator, "is ruthless in its demands and invades the most sacred precincts of the national government."

"It is seeking place and pelf and power, wherever and whenever it can find entrance."

"Just now, it is attempting to invade the Supreme Court of the United States."

"It is presenting to a member of that body the greatest temptation that could be offered to an American citizen—to surrender his place on the bench and become a candidate for political office."

"This attempt to bring the highest judicial tribunal of the country, or any members of it, into politics should be resented, not only by the member to whom the tempting offer is made but by the whole country."

REV. BOWERSOX
BELLIGERENT

Says He Will Preach in Toledo Church Next Sunday—Churchmen Say He'll Not.

By Associated Press Dispatch.

Toledo, April 12.—"Under the protection of the court, I will preach in Western Avenue M. E. church," declared Reverend Albert F. Bowersox this morning.

"Mr. Bowersox will not preach. He has been ousted, and we will call the police if necessary to prevent him from preaching," declared E. E.

McCammon, district superintendent.

Mr. Bowersox asserted this morning that a temporary injunction, which was granted late yesterday on his application, will protect him in his right to occupy the pulpit.

He denied that he has been guilty of improper conduct, as charged, and asserted that proceedings against him had been inspired by his activity against the saloon interest.

Cincinnati, April 12.—"The matter has been disposed of according to the law of the church until the session of the West Ohio Conference which meets at Lima in September."

"The Rev. Mr. Bowersox is no longer pastor of the Toledo church, and I am going to appoint a man to succeed him," declared Bishop William F. Anderson today.

Refuses Paper to Be Read and Navy Leaguers Grow Wrothy.

By Associated Press Dispatch.

Washington, April 12.—Secretary Daniels' refusal to permit Rear Admiral Fiske to read a paper before the Navy League Convention here today, stirred up a wave of denunciation of the Secretary in the meeting and drew hisses from one part of the hall.

The Admiral's paper, previously published in an official publication of the Navy College, was read by William Mather Lewis, of Lake Forest, Ill., while the meeting cheered loudly.

Lack of logical method in the development of the American Navy was deplored in the paper.

"PLAY BALL"

By Associated Press Dispatch.

New York, April 12.—With clear and fair weather reported from seven of the eight major league cities, the opening games of the baseball season today will probably attract big attendances.

As is the case each season, the two major leagues will stage their opening games equally between East and West.

More than usual interest centers in the first contests this season, on account of the many changes in the personnel of the teams.

After Two Months of Continuous Battle Brave Teutons Keep Up Attack With No Diminution of Courage and Ardor.

French Sustaining Shock of Battle With No Evidence of Fatigue Infantry Fighting Slows Up.

(Associated Press Cable)

London, April 12.—In Caurettes Wood, just west of the Meuse river, another attempt to break the French line defending Verdun was made this morning by German troops.

The official communication from Paris says the attack was repulsed.

East of the river, there was no infantry fighting during the night, although the artillery kept up its incessant fire.

The official French statement says the German losses in yesterday's fighting were very heavy.

Press dispatches from Paris give praise of the German soldiers, who, after nearly two months of the fiercest fighting, keep up the struggle with no visible diminution of courage and ardor.

The French, too, sustain the shock of battle with no evidence of fatigue and the struggle goes on with no sign of an ending.

After a winter of inactivity along the French frontier, heavy fighting is now under way, although apparently it is still confined principally to artillery action.

Admits Destruction By Submarines of Five Vessels, Claiming Justification.

(Associated Press Cable)

Berlin, April 12.—The German reply to the American note concerning the damaging or the sinking of five steamships contains the statement that the steamers Englishman, Eagle Point, Manchester Engineer and Berwindvale were destroyed by German submarines.

Evidence is presented to show that these vessels were torpedoed legally, in accordance with rules of war.

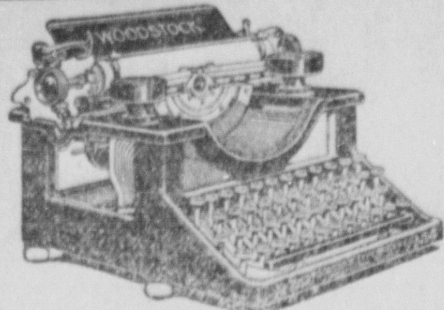

The note states that a German submarine torpedoed a steamship in the vicinity of the place at which the steamship Sussex was damaged by an explosion, but that evidence at hand indicates that the vessel torpedoed by the submarine was not the Sussex.

THE CAUSE OF ANAEMIA

It is universally known that iron is a very important element of the blood, and lack of it is the direct cause of run-down conditions and anaemia. It may interest our readers to know that Druggists Blackmer & Tanquary of this town, have in Vinol a reliable, constitutional remedy for such conditions. Vinol supplies iron to the blood in its most soluble state, then there's the nourishing properties of beef peptone and the medicinal curative extractives of fresh cod livers, without oil, all dissolved in a pure native tonic wine. That's what makes Vinol so successful in overcoming run-down and anaemic conditions. Advt.

Premier Asquith's Position

There is much worthy of the serious consideration of honest, thinking people in the speech of Premier Asquith on the occasion of the visit of the French Senators and Deputies, at Lancaster House, Monday night.

Replying to the recent utterances made by Chancellor Dr. Bethmann-Hollweg in the German Reichstag, regarding the Prussian military power, Premier Asquith said:

"As a result of the war, we intend to establish the principle that international problems must be handled by free negotiations on equal terms between free peoples, and that this settlement shall no longer be hampered or swayed by the overmastering dictation of a government controlled by a military caste. That is what I mean by the destruction of the military domination of Prussia—nothing more, but nothing less."

"We are in this struggle the champions, not only of treaty rights, but of the independent status and free development of weaker countries."

That is a fair, square statement defining the position of a great nation and a great people. It recognizes candidly the utility of any attempt to preserve peace by preparation for war, and frankly acknowledges the inability of weaker nations and peoples to develop under the lowering black cloud of the military supremacy of another nation. With clearness the English premier discloses his belief in the necessity for a universal peace pact to preserve treaty rights and the integrity of smaller nations.

Coming from the accredited spokesman of the heretofore foremost exponent, bar possibly Germany, of the necessity for military and the navy extension there is much in it to encourage those who strive for peace.

These utterances, we should bear in mind, come not from a defeated nation, but from a nation which confidently believes at least, that success will come to its soldiers and sailors.

Premier Asquith's speech should, and doubtless will, open up a new vista to those who strive for peace and hope that the end of war is near at hand.

It should cause all those who advocate, for selfish reasons, tremendous expenditures in furtherance of military programs, as well as those who thoughtlessly follow, to pause and consider the dangers.

It Seems to Be Here

Spring seems to have arrived. A few more days of warm sunshine and balmy south winds will work wonders with the landscape.

In city and country districts the garden patches will be raked and cleared, spaded up and pulverized ready for the seeds and plants that are now growing in boxes placed in south windows.

Many an expert gardener, who has developed his elaborate plans during the long winter and who has been growing restless with springs belated arrival, will soon now have a chance to subject his theories to the acid test, to get blistered hands, stiff back and sore muscles and observe the vast difference in the appearance of the garden pictured on a seed catalogue cover and a garden in the back yard of his own home lot.

In the rural districts the plowing will be pushed to the limit in time for the planting.

Men hereabouts are going to be moderately busy, thank you, for the next few weeks.

Everyone thinks this is the latest spring we ever had. It isn't though. It is the latest one we remember right now.

Not a New Remedy

Hon. James Boyle, of the State Tax Commission, announces, in effect, that if city officials would expend the same amount of time and energy in bringing onto the tax duplicates of their respective municipalities property which now escapes, as they expend in an endeavor to get rid of the tax rate limit, the financial ills of Ohio cities would vanish like the ills of springtime after a big bowl of sassafras tea.

Mr. Boyle is right—absolutely. But he has discovered no new principle of public financing and is advertising no new cure all for public ills.

The same remedy for the existing ills of Ohio cities has been advocated ever since the disturbing effects of the rate limit law have become acute.

The trouble with the old remedy suggested anew by Mr. Boyle is that local taxing officials will not administer the remedy. In fact they could not and hold their positions.

That's the trouble with a locally controlled system of property listing officials, the same system which had been tried and found wanting and to which Mr. Boyle and his chief so loudly advocated a return.

With property listing officials, secure under civil service laws from the wrath of the big tax dodgers the cities and municipalities were in a fair way to obtain a competency, but for political expediency the whole plan was upset and the old failure is resurrected.

Officials are not handicapped by the consequences of not knowing what to do but by the consequences of not doing what they know.

Poetry For Today

STAR DREAMS.

So pure, so ineffably bright,
So friendly, so benign
In the holy silence of night,
The stars upon us shine.

That sometimes I dream when I see
Their glory on me shed,
That the stars God's heaven must be,
Where the souls of our dead.

In lands of light-living, may still
Look on us from above
And commune with our souls at will,
Love's deathless power to prove.

A sense felt within us, a thrill,
Tells us that they are near,
Having come—for they love us still—
Down from their starry sphere.

My soul, when dream-haunted at night,
Wanders from star to star
And seeks the one within whose light
I dream my loved ones are.

A Persian Tale

How a King's Royal Treasury Was Filled

His royal nibs shoved back from his breakfast, consisting of Yankee bacon and buckwheat pancakes, and scowled at the coffee-pot. His scowl deepened as he counted four old tin kettle pots and realized that he had been wiping off his chin with a paper napkin that sold for 15 cents a hundred.

"Zounds, am I to be thus belittled!" cried the ruler of the sun, the moon and the seven seas. "What, he, slave, come to me at once!"

A door of the room opened, and the royal duster appeared. "What is wanted, your majesty?" she asked.

"Call in my royal executionist," he shouted, "and then hunt up Murphy, my royal treasurer, from the city of Cork and tell him to come on the fly! There is going to be something doing here!"

"I'm here, thou greatest of kings!" exclaimed Murphy, the royal treasurer, as he came rushing into the sacred presence.

"Murphy," said the king, "I am going to have your head!"

"Oh, king, what have I done?" was gasped out in reply.

"It is what you haven't done, thou blackguard and deceiver! When you came from Cork to be my royal treasurer

you boasted that my coffers should always be full to the brim. Has it ever been thus? Haven't I been hard up ever since the day you landed from that tramp steamer? Haven't I had to do all the planning to raise the wind? Murphy, you must go around in future without a head on your shoulders!"

"Say not so, oh, mightiest!" wailed Murphy. "I can invent some scheme to fill your coffers in a week. All I need is a brainstorm, and I feel that one is coming on now."

"Murphy," said the king, "I was determined on having your head, but I will try you once more. You shall have till 6 o'clock this evening to think out a scheme."

Murphy made his adieu with trembling chin and shaking knees, and he retired to his room to accomplish the task set for him. After him came the assistant royal stoveblacker in hopes to borrow 50 cents till pay day. In an instant that long sought for scheme flashed upon the royal treasurer. The assistant was wearing a diamond in his shirt bosom as big as an overcoat button.

With a shout of "I am saved!" Murphy ran with all speed to prostrate himself before the king and exclaimed: "Your majesty, I have the scheme. A month ago a Yankee from that Yankee land beyond the sea came here with a big bag full of diamonds and began to sell them at such a low price that everybody could buy. Every washwoman in your capital city has as many as five diamond rings, and many of them have a sunburst as well."

"But how can that be, Murphy? Truly a diamond is a diamond and is worth its price?"

"But the fun of the thing, oh, king, is that they are not real diamonds, but only glass that sparkles. Now let us issue a royal edict that every diamond worn in your realm shall be taxed a certain price."

"But the people who have bought of the Yankee will at once claim that these so called diamonds are glass and thus escape the tax."

"I have looked out for that," said Murphy. "After three or four days, when the wearers of these false stones are chuckling over their escape from taxation, we will issue a second royal edict. We will say that certain persons having belittled your dignity by wearing jewels made of glass, all such glass shall pay double tax, and we will at once proceed to collect the same. Do you get me, O king?"

"I get you bigger than a house, Murphy," smiled the king. "It is the best scheme I ever heard of, and you have saved your head. By gosh, but no one except a man from Cork could have thought that out! You are a peach of a royal treasurer, and I shall continue you in that high office as long as you live and don't ask for a salary. Haste away, my royal friend, and write out those edicts for me to sign." M. QAD.

HOTEL FOR GIRLS

Home Bequeathed to Workers by New York Merchant.

EXPERIENCE SHOWED NEED.

Suggests That Hotel For Unmarried Working Women Be Erected in Business District, but Does Not Confine Executors to Any One Region.

New York.—Charles Bertram Webster, a merchant who died March 16 last, bequeathed about one-third of his large estate for the foundation of a corporation which is directed to erect in the retail dry goods district an apartment house wherein unmarried working women shall have apartments at cost.

The decedent, who for many years lived at the Hotel Netherland, was a native of Providence, R. I., a son of Josiah L. Webster, a dry goods merchant there. He came to New York early in life. In 1896 he retired from active business, but never lost his interest in it or in the people who worked for the firm.

Before providing for the project which had long been in his mind, Mr. Webster bequeathed to five cousins \$5,000 each, set aside \$25,000 to Thomas W. Beckley, described as a "servant," and gave \$10,000 to his coachman, Frank Falkner.

He bequeathed to Joseph L. Webster, his brother, all his horses, carriages, harness, clothing, jewelry and automobiles and two-thirds of his residuary estate. He then said:

"Having been engaged for many years in the business known as a department store in the city of New York and having employed a large number of unmarried women in that business, I have realized that the domestic environments of many of them are not conducive to their morals or health, and I have concluded to endeavor to improve the condition of some of them by giving them the opportunity to live in clean, well ventilated, comfortable and attractive apartments, and for that purpose I direct my executors to form, or cause to be formed, as soon as practicable after my death a corporation for benevolent purposes under the membership corporation law of the state of New York or under such other law of the state of New York as may be applicable at the time.

"The particular objects for which such corporation is to be formed are to generally improve the conditions of un-

married working women and particularly to establish, maintain and conduct apartments in the borough of Manhattan for occupation by unmarried working women regardless of their religious belief or nationality and wherein they may find comfortable and attractive homes.

"The name of said corporation shall be the Webster apartments, and the territory in which the corporation shall be principally conducted shall be the borough of Manhattan."

The decedent suggests that the building be erected in the vicinity of the retail stores, but does not confine the executors to any particular district. He says he thinks the sort of building he desires can be erected and equipped for about \$400,000, but he does not confine his agents to this sum. They can spend more if they think necessary.

"The building shall contain a library and restaurant," directs the decedent, "and such other appurtenances as will tend to render the apartments comfortable and attractive. Apartments are to be let furnished and unfurnished."

"I direct that said apartments shall not be conducted for profit, but solely for the purpose of providing unmarried working women with homes and wholesome food at a small cost to them and in deserving cases without cost to them. I direct that the directors of said corporation shall fix the rentals and the prices of food with the view of carrying out that purpose. The cost of maintaining the apartment and restaurant in excess of the receipts therefrom shall be met from such income as the corporation may have exclusive of the receipts from said restaurant and rentals."

The decedent asks the executors to serve as officers of the corporation until the first annual meeting.

ORDINANCE IS PASSED FOR FLUSHING PAVED STREETS

Council Also Adopts Resolution Not to Pave More Streets This Year, North Main Street Being Excepted—Many Weeks Before Flushing Begins.

At an adjourned session of council, Tuesday night, an ordinance was passed for the flushing of the paved streets, action started toward paving North Main street from Temple to Paint, and a resolution was adopted making it the sense of council that no further street paving be authorized during the present year, the Main street job being the exception.

All members were present with the exception of Bloomer. A few visitors and two flusher agents, Crawford of the Studebaker and Hannah of the Tiffin Wagon Co., were present.

A report from Service-Safety Director Hillery, making recommendations for flushing, was submitted, and provides for flushing the following streets four times each week during the warm months, for a period of five years: Court, North to Hinde; Fayette, East to Market; Main, East to Temple; Market, Main to Alley 1/2 square east of Main. Flushing three times each week, Temple, Main to Hinde. Flushing twice each week, North, East to Gibbs avenue; Washington Avenue, Court to Ely street; East, Main to Washington Avenue; East Court, North to Washington and Columbus avenues; Hinde, Court to Paint; Paint, Union station to Lewis; Columbus avenue, Court to Lewis intersection; Leesburg avenue, Court to McKinney avenue; Main, East to Elm; West Court, Hinde to Leesburg avenue. Once each week, Rawlings street.

Evans suggested that other streets the improvement of which is contemplated, be included. Solicitor Gregg stated these could be introduced any time when finished.

The report was accepted, and an ordinance embodying the recommendations was submitted. The ordinance provides that the Engineer and Service-Safety Director prepare place on file, specifications as above recommended, and authorizes Service-Safety Director prepare to contract with the lowest bidder for flushing the streets. Ordinance further provides for the issuance of bonds in anticipation of the collection of the special assessment to be levied against abutting property owners for the street flushing. A bond of \$1,000 is to be given by the contractor for faithful performance of his duty. Contractor is to flush streets and clean solids from gutter. The entire cost is to be paid by abutting property owners.

The ordinance was read and passed under suspension. It will be several weeks, however, before a contract can be entered into and the street cleaning taken up.

A report from the Service Committee relative to water plugs and other matters, was read. The committee recommended the immediate installation of water plugs, or fire hydrants, as follows:

One on Paint between North and Forrest; Another between Forrest and Walnut; one on Willard, to be moved from corner at Columbus avenue; one on Yeoman, near Worley

street; one at intersection of Harrison and Oak streets and one on Temple near Draper.

The committee also recommended the paving of North Main street from Temple to Paint, this year; the building of a sewer on Oakland avenue, from near the B. & O. R. R. north to an open ditch "so street can be widened and sidewalks built."

The closing recommendation of the committee was that no further street improvements be considered this year. This report was adopted. When the resolution to pave Main street was submitted, Whelpley objected, stating that he could not see the necessity of paving the street, when many of the property owners did not wish the street paved.

Howell favored paving, stating that the section was only one square and was between paved streets and should be completed. If the street was got to be used, he said, why not convert it into a flower bed or garden.

Evans suggested that if the property owners on Main street objected, then proceed with some other street along which the property owners are anxious for paving.

The resolution was read for the first time, all voting yes. When a motion was made for suspension of the rules and read the second and third time, Sheets and Whelpley stopped further action on it at the session by voting no.

Henry Brownell urged council to take steps to pave Rawlings street, stating that the property owners did not ask for the city to pay one-third but would pay for all but the intersections. He thought the street should be completed and Lewis street improved to form a connecting link between the city and Lewis pike.

No action was taken, and council adjourned.

SCOTT IS TAKEN TO THE WORKHOUSE

Oscar Scott, young man convicted of petit larceny, growing out of his robbery of the J. H. Anderson meat market Saturday night, was taken to the workhouse, Wednesday morning, in charge of officer Baughn.

His term in the work house is for a period of six months, while a \$200 fine has been suspended over him to keep him straight after he is released from prison.

FUNERAL SERVICES LARGELY ATTENDED

The Pearce home on N. Hinde street was filled Tuesday afternoon for the funeral services of Mr. Henry C. Pearce. The services were impressively conducted by Rev. Wm. Boynton Gage, assisted by Rev. J. Vernon Stone.

Rev. Gage followed the memoir with a short talk in which he spoke feelingly of the deceased and his many good qualities, known best in the home circle for he was essentially a home loving man. The hymns "Abide With Me" and "I Need Thee Every Hour," were read.

The flowers were many and beautiful, sent from Dayton, Columbus and Lancaster as well as from friends here. Among special designs were a beautiful wreath from

the family, casket spray W. R. C. and double casket spray of dark red carnations and white hyacinths.

The burial was made in the Washington cemetery. The pallbearers were Messrs. Thomas Wright, Thomas Pearce, Chas. Pearce, Herbert Pearce, J. B. Smith and Frank Wright, of Lancaster.

Relatives who were here to attend the funeral were Mr. and Mrs. Thos. Wright, Mr. and Mrs. Frank Wright, Mr. Charles Pearce and son Herbert, Mr. Tom Pearce, Mr. Milton Strode, Mrs. Chas. Enbrick, Mrs. Frank Foster, Miss Etta Greene, of Dayton, Mrs. Will Stuckey, of Columbus.

MILTON HYER ANSWERS ROLL CALL

Mr. Milton Hyer, retired carpenter and builder, and one of the highly esteemed older citizens of Washington, died suddenly, aged 75 years, at his home on the corner of Hopkins street and Broadway, Tuesday night at 10:30.

Mr. Hyer was stricken with paralysis on the 19th of last January. He had recovered to a remarkable degree and was able to be down street daily and do light work, which he much enjoyed, in his garden. Tuesday he worked in his garden quite a part of the day and retired apparently as well as usual. About an hour later he complained of pain in his chest and passed away at half past ten o'clock.

Two devoted daughters, Mrs. Frank E. Dixon, and Miss Linnie Hyer, both living at the home, survive him and have the sympathy of many friends in their sudden bereavement.

Four brothers and four sisters also survive: Dr. A. A. Hyer of this city; John, of Sabina; P. J., of Selden; Marshall T., of Washington, D. C.; Mrs. M. A. Melvin and Misses Tillie and Alma Hyer of this city, and Mrs. Elisha Taylor northwest of town.

The wife and son, Tom, died several years ago.

Mr. Hyer was one of the most active and interested members of the Col. B. H. Millikan post as long as health permitted and held a number of offices in it.

The funeral will be held at the residence Friday at 10 a. m., with the Grand Army in charge. Burial will follow in the family lot in the Washington cemetery.

LOCAL WOMEN AWARDED PRIZES

Mrs. W. B. Rogers and Mrs. R. O. Young have been awarded prizes in the Ohio State Journal's recipe contest. Mrs. Rogers' recipe was for Salmon Croquets and Mrs. Young's for bran bread.

CHOKED CREEK GRAVE MENACE TO THIS CITY

Those who have given careful study to the conditions of Paint creek from a point beginning at the concrete bridge at Millikan avenue, and extending down-stream through the city, see a grave menace to much property in case of a flood similar to or even smaller than that of 1913, as the channel of the stream has been choked in various ways since that time.

First, the concrete bridge is of not sufficient width to permit passage of a great volume of water, and almost under it willow trees nearly three inches in diameter have sprung up to aid in catching drift to retard the current. Besides the several willow trees, innumerable smaller willows choke the current.

The D. T. & I. and C. H. & D. pile bridges form the chief menace, however as the piling have been driven into the bed of the stream in such a way as to form a barrier which would catch and hold drift of all kinds, eventually forming a veritable dam which would send the stream out of the banks in a hurry, and when the new street is constructed, the water would be turned south across Paint street.

During the past year scores of new piling have been driven into the stream at the bridges, the old piling being let alone, while others were cut off at the surface of the stream at ordinary times.

Further down stream other obstructions combine to retard the flow of water. It is menace that will continue until definite action is taken by the county commissioners.

UNION STATION NEIGHBORHOOD A BUSY PLACE

Half-Dozen Gangs of Men Busy on Street, Sewer, Station and Road Work, and Scene of Activity Will Continue for Many Weeks.

The B. & O. station vicinity is a very busy place at the present time, and gives promise of continuing to be a very busy place for weeks to come.

Gangs of workmen are busy on Hinde street sewer and excavating for paving, and another gang is busy on the Paint street sewer.

Workmen are finishing the interior of the union station and completing the umbrella sheds in front of the station. The sheds are ready for the tile roofing. The work of laying the red tile floor in the main waiting room of the station is nearing completion. It will require several weeks to complete the station, lay the brick paving about it, and place everything in readiness, and June 1st is set for the time when it will be thrown open to the public.

The work of filling in Water street from a point opposite the new station to Temple street has been moving forward very rapidly during the past few days, macadam and earth removed from Hinde street being utilized to make the fill. The fill will be completed this week, it is expected, and be ready for the final top dressing of stone or gravel. The street will be one of the widest short streets in the city.

Men also are busy completing the work of resetting the curb on Hinde street, and filling in behind the new curb, so that within a few days the concrete base can be laid.

At the new two track concrete culvert just east of the coal tipples E. & O. men are completing the work of filling in and re-ballasting the road bed at that point.

Virtually everything has been cleared away so that the work of filling in the new street immediately north of Paint creek, from Millikan avenue to Oakland avenue, across the Willis Lumber Company's lot and the lower end of the Sales Barn tract owned by Chas. Allen, can be taken up as soon as the excavation work on Main and Paint streets is started.

"Don Quixote"

With De Wolf Hopper in the Title Role

Is a production of the highest order, showing throughout appreciation of a romance that has warmed the hearts of three centuries. De Wolf Hopper is amazing. All that he has done on the stage will die with him, but his impersonation of Don Quixote in this Triangle offering will assure his immortality—it is a performance without a flaw.

He is very well supported and the work of Fay Tincher is especially to be recommended.

In conjunction will be seen Ford Sterling in one of those roaring two-reel Triangle comedies, entitled

In Social Circles

Browning Club met Tuesday night with some thirty present and much interest in the closing program for the year's work. Mrs. Henness, president, presided.

Secretary, Mrs. Burgett, gave minutes of last meeting showing quite an amount of unfinished business, which was taken up for completion.

As delegates appointed to National Federation could not attend, Mrs. Elizabeth Carpenter and Alternate, Miss Edith Gardner, were appointed. "Baby Week" campaign was considered. Mrs. Harry Sprenger who was a most indefatigable worker, gave some report of the much good accomplished, beginning with over 125 babies examined by the doctors, the women hope for still greater results another year and Mrs. Sprenger said the co-operation of the Browning club had been a great aid.

Miss Gardner reported the date of the Shakespearean recital as April 26th, in the Baptist church.

The secretary gave a report, sent to the club concerning milk investigation. Miss Tullis reported for Miss Channel the help that had been given scholars in her school, \$15, through the entertainment of the Browning club, "Daddy Long Legs."

Mrs. Kerr, as chairman of Household Economics, had charge of the department and the motto "A Penny Saved is a Penny Got," was well shown in the first paper, by Mrs. Burgett, on "The Art of Marketing." Intelligence and skill are surely needed here and only secured by practice. Conservation is a good thing and also to take the percentages which help the household managers.

A beautiful vocal solo was given by Miss Ada Woodward with Miss Ruth Reid as accompanist.

"Mother Craft," was topic of a very sensible, helpful paper with the aim of aiding mothers in child training, by Mrs. F. D. Woodard. Matur-ing of human life is like plant life and a child needs to be trained early. The quotation aptly fitted and was well illustrated, "Only the best of mothers are the mothers of best of men." Miss Tullis read a paper written by Mrs. Tysor, "Responsibility to Daughters in Regard to their Clothing." The practical points were very well made and of interest.

The club felt it was profited and instructed in a talk by Dr. L. P. Howell on "The Sewerage System of Today." Living in a modern time, money must be spent for modern improvements. Hygiene and sanitation are calling for and getting much of practical work. The needs are startling in behalf of sewerage, a cess pool problem and trunk sewers. The club thanked Dr. Howell for giving this needed information which they hope to make use of.

The closing number of the program was a review of "Every Woman," a play written by Walter Brown, teaching the motto: "Be merciful, be just, be fair, to every woman everywhere."

The Mary Boyd Hale class of the First Presbyterian church was delightfully entertained Tuesday afternoon at the home of Mrs. Josephine Kerr, with Mesdames Hale, Jackson, Hadley, Hamm, Ellen Jones, Kimball, Hammer, Grove, Gardner and Miss Alma Hyer.

Thirty women were present and after a brief business session, enjoyed sociability and dainty refreshments.

Miss Dorothy Post gave a very pretty program at Conservatory Hall Tuesday afternoon. The bright young student showed decided ability and played with excellent time and expression.

Ralph Lloyd contributed a taking song, with chorus by other pupils; Miss Post accompanying.

Christine Meiers gave an entertaining recitation, "Faith and Works." Mrs. Carpenter gave an original tribute, in rhyme, to the younger pupils which made a big hit with the children. The poem introduced each name in a pleasing and complimentary way.

The next recital will be held on Saturday, April 29th, at 3 p. m., when 25 pupils will give an Easter program.

The members of the Harry Wood Bible class of the First Baptist church were royally entertained at the home of Mrs. Will Davenport, Tuesday evening. After the regular business session, an interesting feature was the drawing of letters in which each member was assigned some special duty to be performed and reported upon at the next meeting.

The serving of dainty refreshments added much to the social hour which was full of enjoyment, so full indeed that when the time came to say Good Night, the company lingered, going out buoyantly to take up the work of life anew and help to lighten the burden of others.

Twenty-five couples greatly enjoyed the Pythian Sisters' assembly dance at the K. of P. Castle, Tuesday night.

Horstman and Miller furnished the music.

O. E. S.

All members of Royal Chapter No. 29, O. E. S., are requested to meet at Masonic Temple, Thursday at 1:30 p. m. sharp, to attend the funeral services of Sister Hattie Swope-Parker.

CRAIG BROS Easter Millinery!

Tomorrow Begins the Easter Fashion Season, and Our New Arrivals Have Placed Us In Readiness for Your Coming.

Hats That Are Favored

Straws With High Lustre—Lisere and Porcupine Braid Are In Strong Demand.

Light colored hair hats, soft delicate shades matching the colors in the frocks for summer, and in combination with lace, maline or tuscan and tailored effects in black hair are conspicuous in the lines of all leading designers.

Milans in tailored and demi-tailored styles of course.

A novel millinery innovation is the introduction of Chinese and Mexican straws, especially in the tan and dull green shades, and several noteworthy types of this character are shown in loose weaves interlaced with ribbon.

Basket weaves are among the leaders.

The millinery section may rightly be termed an exposition of ALL the correct modes of the season, from the showrooms of designers of much reputation.

SENATE PASSES ITS 'SUB'

Extends Present Duty on
Sugar Until May, 1920.

NOW GOES TO CONFERENCE

Flat Repeal Resolution as Passed by
the House Favored by Four Demo-
cratic Senators, Who Voted With
Republicans Against the Senate
Substitute—Sharp Controversy in
Conference Anticipated.

Washington, April 12.—The senate
passed its substitute for the house
free sugar repeal resolution, extend-
ing the present duty of 1 cent a pound
on sugar until May, 1920. The vote
was 40 to 32.

Four Democrats, Senator Brou-
sard, Ransdell, Newlands and Lane,
joined the Republicans in voting
against the substitute. They favor the
flat repeal passed by the house. A
sharp controversy in conference be-
tween the two houses is predicted.
Anticipating that the house would
insist upon its resolution, Senators
Simmons, Stone and Lodge were nam-
ed as the senate conferees.

Unless a conference agreement is
reached and approved before May 1,
sugar will go on the free list until
such time as the repeal or extension
of the duty can be made effective.

Most of the tariff discussion did not
touch upon the sugar issue, but was
devoted to an amendment by Senator
Works of California to increase the
tariff on lemons and other citrus
fruits to 1 cent a pound. This was
defeated by a vote of 44 to 29, Sena-
tor Phelan of California being the
only Democrat to support it.

Senator Phelan declared seven coun-
ties in California comprised the whole
lemon producing region in the United
States and that the reduction of the
duty on lemons had caused a loss of
\$800,000 in revenue. He insisted that
lemons were a luxury, not a necessity.

Senator Vandaman opposed the
Works amendment and said while he
would vote for the senate substitute
sugar resolution he would not give
his assent to the house measure. "I
would not vote to tax any of the ne-
cessities of life for battleships that
are not needed," he said. "I have
very little sympathy for the prepared-
ness program that seems to be agreed
upon."

A HUMMER

(By American Press)

Washington, April 12.—The river
and harbor bill, authorizing the ex-
penditure of \$39,608,410 for river and
harbor work, was passed by the house
by a vote of 210 to 133. The only
amendment adopted was one offered
by Representative Good, prohibiting
the payment of any sums included in
the bill to private contractors charg-
ing more than 25 per cent above the
estimated cost of the work as done
by the government. Mr. Good charged
that the dredging contractors were
making exorbitant profits and that a
pool existed for the division of gov-
ernment work. The amendment was
adopted by a rising vote of 113 to 73.

LUSITANIA ELOPEMENT

(By American Press)

Lynn, Mass., April 12.—Not until a
divorce was granted to Mrs. Marion
L. Snowden of this city was it known
that her husband, Thomas E. Snow-
den, and Mrs. Eva Finch, wife of John
Finch, all well known in this city,
were eloping to Europe on the Lusit-
ania, a year ago when that steam-
ship went down. Mr. Snowden was
rescued from the Lusitania, but Mrs.
Finch was drowned.

CAN'T HOLD HIM

(By American Press)

Columbus, April 12.—Beitler among
attorneys is that Secretary George L.
Stoughton of the state industrial com-
mission can not be held liable for a
crime in connection with his action
in sending to civil service employes
letters urging political activity in be-
half of Governor Willis. Stoughton is
not under civil service, and therefore,
it is said, can not be indicted as a
principal in connection with alleged
violations of the civil service laws.

OHIO NEWS

Plumbers' Strike Settled.

Alliance, O., April 12.—The striking
plumbers settled their wage differ-
ences when the employers agreed to
pay \$4.60 the first year, \$4.80 the sec-
ond and \$5 the third for eight hours.

Bids For Road Work.

Columbus, April 12.—State High-
way Commissioner Cowen will open
Friday, April 28, bids on contracts for
the construction of portions of thirty
four roads of various types in twenty-
four counties. The estimated cost of
the contracts is \$1,135,377. Improve-
ment of eighty-two miles is con-
templated in the contracts, which, to-
gether with the letting of last week,
provides for the construction of 172
miles.

Will Resist Removal.

Toledo, April 12.—Rev. A. S. Bow-
ersox, pastor of Western Avenue
Methodist Episcopal church, obtained
a temporary injunction in common
pleas court to restrain the church
trustees from removing him. Mr.
Bowersox was tried March 1 by a
church committee and found not gilty
of charges of indiscretions prefer-
red against him. This finding later
was reversed. The proceedings were
secret.

Stand of Willis.

Cincinnati, April 12.—Governor
Willis has written a letter to Leslie
L. Tull, editor of the Cincinnati Truth,
a colored newspaper supporting the
candidacy of Ralph W. Tyler of Co-
lumbus for delegate-at-large to the Re-
publican national convention, in
which he declares he knows of no or-
ganization of colored state employes
which has for its purpose opposition
to Tyler's candidacy, and that if he
did know of such an organization he
would not approve it.

Club Officials Fined.

Toledo, April 12.—Jacob Kelly,
president of the Manhattan Golf club,
and Charles Germain were found gilty
of selling liquor without a license.
They will appeal the cases. Kelly
was given the maximum fine, \$500
and costs, while Germain, who, dur-
ing his trial, threatened to "load a
gun" for State's Attorney Bell of Co-
lumbus, according to a statement Bell
made to Judge John P. Manton, was
fined \$400 and costs.

Cases May Be Dropped.

Columbus, April 12.—Two suits filed
in 1910 by U. G. Denman, then attor-
ney general, against the estate of the
late William S. McKinnon and Isaac
B. Cameron, former state treasurers,
to recover interest on public funds al-
leged to have been converted by them
to their own use while in office, will
be dropped from the Franklin county
common pleas court docket unless
steps are taken at once by Attorney
General Turner to prevent such ac-
tion. The state seeks to recover about
\$200,000 in the two actions.

FACES MUSIC

(By American Press)

New York, April 12.—United States
Commissioner Houghton decided that
there was sufficient evidence to war-
rant his sending Ernest Schiller back
to Delaware to stand trial for piracy
committed on the high seas when he
captured the British steamship Ma-
toppo single handed. If the commis-
sioner had decided otherwise and had
released Schiller, or Clarence Hudson
as the latter sometimes calls himself,
the "pirate" would have immediately
been arrested in connection with de-
portation proceedings. Schiller's at-
torney, when he heard of the steps
taken to send his client out of the
country as an undesirable alien, came
to the conclusion that his client was
better off in Delaware than he would
be in the hands of the British authori-
ties, who would probably hang him.

TRAGIC END

(By American Press)

Columbus, April 12.—Dr. Charles F.
Gilliam, sixty-two, superintendent of
the Columbus state hospital, for years
active in Ohio Democratic politics,
and Miss Elizabeth Somerville, twenty-
five, a nurse, daughter of the hospi-
tal's matron, are dead as a result
of an accident in Grandview avenue,
near Goodale boulevard, when the
physician's auto was struck by a
Pennsylvania freight train.

No others were in the auto. It was
thrown 75 feet ahead of the train and
across the track. The gasoline tank,
which exploded, immediately set fire
to the machine and burned to a crisp
the body of Miss Somerville, which
was lodged under the wreckage.

Dr. Gilliam, who retained conscious-
ness after the accident, said that he
was driving the machine, which be-
came stalled on the track directly in
front of the train.

HYDE ACCUSED

for Dr. Hyde's arrest was issued. Dr.
Hyde has been tried three times for
this murder.

SLIGHT ADVANCES BY TEUTONS

Verdun Battle Raging With

DESPERATE ATTACKS MADE

French by Counter Assaults Recover
Trenches Lost Near Douaumont.
Foothold Gained by Germans On
the Slope of Le Mort Homme—Rus-
sians Cneck Von Hindenburg's On-
slaught—Operations On All Fronts.

London, April 12.—Slight gains
were made by the Germans in the
struggle for Verdun.

The French front between Doua-
mont and Vaux, to the west of the
Meuse, was subjected to a heavy Ger-
man attack. A temporary footing
was gained in some advanced trench
elements of the French line, but the
French launched a counter attack
and immediately cleared these ele-
ments, so that no permanent gain for
the Germans resulted from the as-
sault.

The operations proved to be an-
other instance of the strategical
scheme which has been employed so
often by the German command in the
Verdun campaign of alternating heavy
attacks between the two sides of the
Meuse. In an attempt to catch the de-
fenders unprepared through their
anxiety for the strengthening of the
front previously attacked.

A footing was gained by the Ger-
mans on the slopes of Le Mort
Homme, the important height on the
western bank of the river. This hill
is the chief point against which the
recent German operations on this side
of the river have been directed, since
it gives artillery emplacements com-
manding the lines on both sides of
the river, and its capture by the Ger-
mans would mean a still further
straightening out of the French
salient, which already has been com-
pressed by the taking of Bethincourt
for weeks the apex of the salient.

The Paris war office announced
that German losses in the Verdun bat-
tle have now reached 200,000.

Berlin announces further gains
southwest of Fort Douaumont, but re-
ported the French on the aggressive
around Pepper Heights.

More than 35,000 prisoners have
been captured by the Germans since
the Verdun offensive began Feb. 21.
It was semi-officially stated at Berlin.

In the Russian theater, an attempt
by the Germans to take the offensive
in the region of the Ikskull bridge-
head was stopped by the Russians.
The big guns of both sides have been
very busy at various points elsewhere
along the front.

Petrograd reports the Russians are
continuing to gain ground against the
Turks in the region of Erzerum.

The Austrians, between the Adige
and Sugana valley, have brought into
the campaign artillery which is de-
scribed by Rome as new and very
powerful. The Italian guns, however,
have replied effectively to their fire.

landing has caused a new sensation
in the Greek capital. The Greek pre-
mier has sent strong protests to Lon-

A Great Commonwealth En- riched by Our Service

Ride over the state of Ohio. See its fertile grain fields and
meadows; its orchard crowned hills. Observe the thrifty,
happy looking homes on every side. Go into the cities. Listen
to the factories humming with industry, and busy with the
production of new wealth. Study the enlightened, happy men
and women you will see in town and country, and then reflect
upon the meaning of all that you have seen. You will be
forced to conclude that here, indeed, is a great and prosperous
commonwealth.

There is not a corner of this great state that does not draw its
tribute of dividends from Geiger-Jones securities. There is not a
county that is not richer today because of prosperous industries that
have been financed by The Geiger-Jones Company.

The function of The Geiger-Jones Company has been to facilitate the
production of wealth in Ohio by gathering capital in small sums from
outlying places and putting it at the disposal of growing industries.
The industries we have financed now employ between fourteen and
sixteen thousand people and pay out between \$14,000,000 and \$15,000,000
each year in wages. More than 10,000 other people are interested in
them as preferred stockholders, and not one of these has ever suffered
the loss of a dollar on his investment. Thus, directly and indirectly,
this company has been a powerful factor during the past twelve years
in adding to the wealth and prosperity of this great commonwealth.

More than 10,000 satisfied investors know by personal experience
that these are the true facts about The Geiger-Jones Company—but
in order to facilitate the investigations of others, we have prepared
"A Portfolio of Anniversary Reports With Photographs from Manu-
facturing Enterprises Financed by The Geiger-Jones Company." This
is an interesting 32 page publication that tells about great enterprises
that are doing much day after day to enhance the prosperity of in-
vestors, manufacturers, merchants, bankers, wage-earners and farmers
throughout the state. We will gladly mail a copy without expense or
obligation if you will send in a post card bearing your name and
address.

ONLY RUSE OF BANDIT

Army Officers Flout Report
of Villa's Death.

PURSUIT NOT ABANDONED

Body of Villa Said to Have Been
Buried Near Santa Anna and Ameri-
can Aviators Are Dispatched to
Scene to Make Investigation—Ameri-
can Troops in Touch With Outlaws
Below Parral.

El Paso, Tex., April 12.—The Mexi-
can report that Pancho Villa is dead
and buried and that his scattered band-
its are fleeing in small bands in any
direction for safety is discredited.
There is a suspicion in army circles
on the border that the story of
Villa's death is a cleverly concocted
scheme of the wily bandit himself to
throw the American troops off his
trail long enough to give him a chance
to get out of their reach.

The border did not credit the re-
port much as it wished to believe it,
although there were many in official
and other circles who were inclined
to believe there was a fifty-fifty
chance that the bandit leader had
died of his wounds. It had establish-
ed without question that Villa was
wounded. General Gaviira, command-
ing the Juarez forces, stated that
from last reports he had received re-
garding Villa, the bandit chief was
about to die of blood poisoning. The
story of the actual death of Villa
coming on top of this information led
many to credit it.

There is no doubt the report is gen-
eral throughout the region where Vil-
la has been operating that he is dead.
Some say his grave is located at San-
ta Anna, twenty miles south of Sa-
tevo.

American aerial scouts have been
ordered to the scene to attempt to
locate the grave. Meantime General
Pershing has kept his men in the field
on the trail of the bandit.

An official connected with the
American state department in Juarez
learned from advices to American
mining companies that a band of Vil-
listas, believed to be the command
last seen with their chief, was fol-
lowing the valley of the San Pedro
river and headed for Guadalupe
Calvo, which is one of the strongest
natural fortresses in southwestern
Chihuahua. Villa and his men knew
this rendezvous of old, and if he is
not dead the mining men say they
are convinced that this will be his
destination.

The news of the reported death of
Villa was brought to the attention of
the American public by a dispatch
from the Associated Press.

Villa was brought to the border by
Lieutenants H. A. Dargue and E. S.
Gorell of the American aviation
corps, who had heard the story from
many natives in the country around
Santa Anna, Satevo and Cusi. They
raid all the natives generally believed
it. A telegram over the Mexican
Northwestern railroad from Per-
shing's headquarters also brought
the news during the day, and Mexican
officials declared they had received
the same news and credited it, adding
that the mission of the American
forces in Mexico had now been ac-
complished.

Americans generally do not believe
that Villa, if alive, has succeeded in
getting as far south as reports have
put him. According to Aviators Gor-
rell and Dargue, the Villa bands were
known to have camped south of Par-
al as late as two days ago, as they
had all been located in the vicinity of
Satevo, a little to the west. Ameri-
can forces have clashed with some
of these bands since that time, they
reported on reaching Columbus, N. M.

SHERMAN'S BOOM WINS

Senator Is the Choice of Illinois
Republicans.

Chicago, April 12.—Senator Law-
rence Y. Sherman is the choice of Illi-
nois Republicans for the presidency.
Returns in the first presidential pref-
erence primary under the new law
show the Republican slate of eight
delegates-at-large pledged to the sup-
port of Sherman has been elected by
large odds. John Maynard Harlan,
sole Roosevelt champion, and the
fifth name on the Republican ticket
in the delegate-at-large group of de-
legates, ran far behind the others.
Returns on the district delegates to the
Republican convention show Sher-
man has apparently captured the en-
tire list.

On the Democratic side no one was
running for delegate to the conven-
tion who was not pledged to Presi-
dent Wilson.

Slugging of policemen and politi-
cians, terrorizing raids by gunmen in
automobiles, scores of free-for-all
fights and frequent arrests made the
election in Chicago the roughest and
toughest of the year.

Women were permitted to vote only
on the presidential preference. Not
more than 5,000 voted in the entire
state on the basis of the returns.

One thousand and seventy-two pre-
cincts gave these totals on the pref-
erential vote: Sherman, 31,131;
Roosevelt, 4,244; Hughes, 301; Root,
49; Thompson, 2.

Rome, April 12.—On Germany's in-

shortly at Vienna between Austria
and Bulgaria with the object of a final
settlement of the partition of Serbia.
Although it has practically been de-
cided that the lion's share will be as-
signed to Bulgaria, complications are
feared, owing to Bulgaria's claim for
Salonica, which, it is said, was prom-
ised to her on condition that Rou-
mania remained neutral. Austria and
Germany have been unwilling to
hasten the attack on Salonica, which
was urged by Bulgaria. Further com-
plications are feared in the case of
Albania.

THE GIRL AND THE GAME

A Story of Mountain Railroad Life

by FRANK H. SPEARMAN

Novelized From the Moving Picture Play of the Same Name Produced by the Signal Film Corporation.

SYNOPSIS.

Little Helen Holmes, daughter of General Holmes, railroad man, is rescued from imminent danger on a scenic railroad by George Storm, a newsboy. Growing to womanhood, Helen saves Storm from a fireman, her father, and his friends. Amos Rhinelander, financier, and Robert Seagrue, promoter, from a threatened collision. Safebreakers employed by Seagrue steal General Holmes' survey plans of the cut off line for the Tidewater, fatally wounding the general and escape. Her father's estate badly involved by his death, Helen goes to work on the Tidewater. She recovers the survey plans from Seagrue, and though they are taken from her, finds an accidentally made proof of the survey blueprint. Storm is employed by Rhinelander. Spike, befriended by Helen, in turn saves her and the right-of-way contracts when Seagrue kidnaps her. Helen and Storm win for Rhinelander a race against Seagrue for right-of-way. Helen, Storm and Rhinelander rescue Spike from Seagrue's men.

(Continued from Yesterday's Herald)

Spike came forward as Seagrue and Bill appeared and while the latter two examined the machine.

"The girl and Storm came up with this crook in the machine," Bill said, nodding toward Spike.

"Where are they now?" demanded Seagrue of the convict.

"Up town getting something to eat," answered Spike.

In the restaurant, to which Storm had taken Helen for lunch before they should go up to the courthouse, Storm, while Helen was ordering, took from his pocket the note for the recorder and gave it to her. Helen opened, read and laid the note on the table with her pocketbook. She and Storm were just enjoying the prospect of a substantial meal, when Seagrue, walking in, approached their table. He spoke to them unconcernedly and, without waiting for an invitation, pulled up a chair and sat down with them.

As tactfully as she could, she made her explanations to Seagrue about commandeering his motor car. Seagrue affected truculence and declined to accept her apologies. But he drew a pencil from his pocket, at length, and using the note lying beside Helen's pocketbook for a pad, wrote on it an exorbitant figure. Showing this to Helen, he said dogmatically. "That's what it will cost, if you want this thing settled without trouble for you."

Helen flushed a little with indignation when she saw what he demanded but she was resolved not to quarrel. "All right," she answered simply, "Mr. Rhinelander will send you a check."

The luncheon Storm had ordered was just coming in and while Helen and Storm watched the waitress, Seagrue, leaning forward, looked again at Rhinelander's note still lying on the table. He began to read it. Storm saw the impertinence and leaning over, coolly picked the note from under Seagrue's eyes and folding it, put it in Helen's pocketbook.

Seagrue, somewhat disconcerted at being caught, rose and left the table without further words. By the time he gained the street he had charted the situation, imprudently revealed through Helen's carelessness in guarding the instructions, pretty clearly in his mind.

BIG LEAGUES OPEN TODAY

Keen Interest Shown Throughout Both Circuits.

New York, April 12.—Today the opening of the major league baseball season will be celebrated in Chicago, Cleveland, New York and Boston in the American league, and in Brooklyn, Philadelphia, St. Louis and Cincinnati in the National league.

In New York city baseball should be good this year, for all three of the clubs of the metropolis are strong ones, it is believed. With the Giants, Highlanders and Superbas all going well, it will mean prosperity for the more provincial cities who have their usual quota of games to play here.

At Cleveland a revival of interest is anticipated with the signing of Tris Speaker, the star outfielder, and new ownership of the club. Chicago and Cincinnati anticipated rousing openings.

Spring exhibition games revealed some weaknesses in clubs, noticeably the Chicago and Cincinnati, in the National league and St. Louis and Philadelphia in the American.

Many of the clubs have been strengthened during the past winter and every indication points to close races for the pennants. The defunct Federal league and the minor circuits have been fine-combed for diamond talent.

In the National league, Boston, Philadelphia, Brooklyn and New York are generally picked to finish in the first division, while in the American league, Boston, Chicago, Detroit and New York are favored to fill first division positions. Cincinnati is picked by many to make the best showing of any of the western clubs in the National league.

The opening games are as follows: American League—St. Louis at Cleveland, Detroit at Chicago, Washington at New York, Philadelphia at Boston. National League—Chicago at Cincinnati, Pittsburgh at St. Louis, New York at Philadelphia, Boston at Brooklyn.

BELL ON RAT DOES TRICK.

Two Telephone Company Managers Finally Get Wires Through Tunnel.

Canton, Ill.—Success has crowned the efforts of two rural telephone company managers to establish a physical connection between their exchanges here in compliance with an order of the public utilities commission.

It was necessary to run the line through a conduit or tunnel 434 feet long, but of narrow diameter. First a rat with a silk fish line tied to his tail was started through the small passage. A ferret was sent after him to hurry him up, was too ambitious and caught the rat. The entire collection of rats gathered through the medium of a newspaper want ad. were sent through the conduit, but the managers were never able to judge properly the ferret's handicap.

A local inventive genius suggested tying a bell on a rat recently. This was done. The fish line was dragged through and then in turn a fine copper wire. The rat neglected to stop, and as a reward for faithful service he was permitted to escape.

PIPES INSTALLED FOR HOTEL ADDITION

Service pipes have been installed from Fayette street immediately south of the Arlington Hotel, to be used when the big new addition to the Arlington is constructed.

It has not been determined whether the work on the addition will be started this spring, or summer, or if it will be erected this season, but indications are that work will be launched sometime within the next few months.

WANTS HORSES BY THOUSANDS

Mr. Chas. Allen is in receipt of lengthy telegrams from George M. Davis, of New York City, one of the heaviest buyers of horses for the British and French governments, inquiring about the purchase of several thousand horses from this vicinity, providing they can be obtained at reasonable prices.

If present negotiations are closed this city may become a purchasing center for the next two months and large numbers of horses be purchased by Mr. Allen, with a French inspector located here during that time.

Mr. Davis wired that he would be here Thursday of this week, and if arrangements could be made, would begin inspections within a few days.

OHIO STATE GRAD. WEEK

By Associated Press.
Columbus, O., April 12. — Rev. Charles D. Williams, Episcopal bishop of Michigan, will deliver this year's commencement address to graduates of Ohio State university. The address will be made at 10 o'clock the morning of Tuesday, June 6 in the university armory. Commencement week at the university will begin Friday, June 2, with the Browning Society's production of "Midsummer Night's Dream" on the campus. The week's activities will end the following Tuesday. The program, as announced by President W. O. Thompson, will be:

Friday, June 2, Browning play, 8:15 P. M.

Saturday, June 3, Alumni Day, including class reunions, university bonfire, prize drill and sing, alumni luncheon.

Sunday, June 4, Baccalaureate exercises, 3:30 P. M., and vespers 8:30 P. M.

Monday, June 5, Class day exercises; parent's luncheon; ball game, seniors vs. faculty; president's reception at 3:30 P. M., class work to end at 6 P. M.

Tuesday, June 6 Commencement exercises at 10 a. m., in armory; senior prom at 9 P. M.

For a time university officials were considering the erection of a temporary tabernacle or the renting of a circus tent in which to hold the commencement exercises, but because of the limited time this plan was not adopted and the armory will be used as in former years.

HOTEL WILL HAVE NURSERY WOULD MAKE CHEAP "GAS"

By Associated Press.
Cleveland, O., April 12.—Cleveland is to have the first hotel in Ohio with a nursery, equipped for the care of children. David Olmsted, who will manage the new hotel declares that a nursery is as necessary to the comfort of guests as baths and elevators.

Therefore, the nursery will be established. It will be in charge of a trained nurse so parents who wish to attend the theater or go shopping may leave their little ones, knowing they will be well cared for. A physician will be in communication with the nurse. Nursery pictures and rhymes will decorate the walls.

The C. O. D. Man

How He Proved His Honesty

"I may be that in some of my adventures, so kindly published by the newspapers at large, I may have called myself an honest man," said the C. O. D. man as I sat down beside him with pencil and pad in hand.

I knew that C. O. D. meant cash on delivery, and when I had put a quarter into his hand and he had made a test of its genuineness he continued:

"One fall, just as the country began to hum over nominations and elections, a farmer gave me a job. After three or four days I found out that he was a member of the legislature and his term would soon expire. He was not going to succeed himself. He was suspected of graft, and, more than that, he confided to me that he had taken a money interest in some of the bills before the body. He continued to grow confidential, and finally he said:

"I took you for a common tramp, but I see I was mistaken. You are an intelligent man and of good education, and I believe you could stand up before a crowd and make a good speech. They are beginning to look around for candidates, and I believe I have influence enough to get you the nomination provided you divvy with me on what you make."

"But how will I make anything?" I asked.

"Lord, man, if you can't make a couple of thousand dollars you are no good! They call it graft."

"I couldn't divvy with you, my friend," I said, "because there will be nothing to divvy. I shall draw my wages as a member, but there will be nothing more. I have always been an honest man, and I shall not change."

"Then you may limp along to the next farmhouse, and be durned to you!" exclaimed my kind friend, and I limped. I got another job with another farmer in another county, and in a week he said:

"There is a political breakdown here. I want to go to the legislature, and so do about twenty others. I can't get the nomination, but I'd like mighty well to furnish a candidate and beat the other fellows to it. You are a smart chap. I'll tell you what I will do. I'll scrape you up a pretty good suit of clothes if you will go into the meeting to be held tomorrow night and speak in my favor and give the rest fits. If they don't take what you say about me favorably then I will stand up and move that the nomination be given to you. It may create a stampede and give you the election, but you must understand that as a member of the legislature I control your vote. If there is any money to be made we split it fifty fifty."

"I didn't stop to argue the matter. When the meeting opened next evening I was there in one of the landlord's old suits, and after two or three rows and riots I was called upon to take the platform and speak in the interests of harmony. I spoke, but it didn't bring about that peace and harmony which every one so desired. I announced that not one of the men in the meeting was a fit candidate for office; that not one of them had an honest hair in his head; that every one of them could be bribed for a hundred dollars to vote for anything the leaders of his party wanted him to.

"My first words so stunned them that they let me go ahead for five minutes, and then the crisis came. I do not know how many times I was stepped on, punched, kicked and thrown about, but some one finally threw me out of one of the windows, and I escaped. I afterward heard that about twenty men were badly injured, the hall set on fire and burned to the ground, and a feud started among the men which lasted five years. And all this come about because I would not sell my honesty."

MAY MAKE DYES IN THE OHIO PEN

Columbus, O., April 12.—Dyes will be manufactured by the Ohio penitentiary with secret German processes, if Dr. Emerich Ritter, Cleveland prisoner and self-confessed former German confidential agent, substantiates the claim he made today to Warden Thomas.

Dr. Ritter is a skilled chemist and asserts he is the inventor of "liquid fire." His confession of complicity in the Welland canal plots and other foreign agitation, created a sensation after his arrest and trial in Cleveland last fall. He finally was sentenced only for carrying concealed weapons.

Mrs. Ritter, wife of the prisoner, was on her way here today from Cleveland with small quantities of materials with which Dr. Ritter declared he will demonstrate that valuable dye stuffs, now so scarce in this country, can be made from cheap products.

"I worked in a German dye factory as confidential chemist and I positively know the process," said Dr. Ritter. "Let me have the chance and I will prove it beyond doubt. I can make the state of Ohio the greatest producer of dyes in this country—with the Honorable Warden's permission."

INJURED BY FALLING TREE BOY RUSHED TO HOSPITAL
